Independent Auditor's report

To the shareholders and the board of directors of Stodir hf.

Opinion

We have audited the financial statements of Stodir hf. for the year ended December 31, 2025 which comprise the statement of profit or loss and other comprehensive income, the statement of financial position, the statement of cash flows, the statement of changes in equity for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Stodir hf. as at December 31, 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU and additional requirements in the Icelandic Financial Statement Act/the Icelandic Financial Statement Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Iceland, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the CEO for the Financial Statements

The Board of Directors and the CEO are responsible for the preparation and fair presentation of the Financial Statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, and for such internal control as the Board of Directors and the CEO determines is necessary to enable the preparation of the Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors and the CEO are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors and the CEO either intend to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's report

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related notes made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kopavogur, 5 February 2026

Deloitte ehf.

Ingvi Bjorn Bergmann
State Authorised Public Accountant

Endorsement by the Board of Directors and CEO

These financial statements comprise the financial statements of Stodir hf. ("Stodir" or "the Company"), an Icelandic investment company, majority-owned by private investors, focused on creating long-term value through active ownership.

According to the income statement, profit for the year 2025 amounted to ISK 6,830 million (2024: ISK 4,150 million). According to the statement of financial position, equity at 31 December 2025 amounted to ISK 58,062 million (2024: ISK 52,155 million).

The year 2025 was characterised by continued value creation across Stodir's portfolio through strong operating performance, strategic transactions and active ownership. The focus remained on strengthening core holdings, pursuing growth opportunities, improving capital structures and enhancing corporate governance.

Arion Bank, in which Stodir holds a 5.2% stake, continued to execute on its strategic priorities during the year while delivering excellent operational results. Arion Bank entered into merger discussions with Íslandsbanki, which did not result in an agreement. Later in the year, merger discussions were initiated with Kvika Bank, resulting in a merger agreement in the summer. The merger process with Kvika Bank remains ongoing, with an outcome from pre-notification discussions with the Competition Authority expected in early 2026. Furthermore, Arion Bank completed the sale of the Arnarland plot. During the year, Stodir sold 8 million nominal shares in Arion Bank, representing 0.6% of the outstanding shares.

Kvika Bank, in which Stodir holds a 5.3% stake, made significant progress on several strategic initiatives during the year. The sale of TM, Kvika Bank's insurance subsidiary, to Landsbankinn was completed in February, and the proceeds were, to a large extent, returned to shareholders through dividends and share buybacks. During the year, both Arion Bank and Íslandsbanki expressed interest in a potential merger, where the Board of Directors of Kvika Bank subsequently decided to enter into merger discussions with Arion Bank. In addition to the above, the bank also continued to expand its profitable UK operations. During the year, Stodir sold 100 million nominal shares in Kvika Bank, representing 2.2% of the outstanding shares.

Síminn, Iceland's largest telecommunications company, in which Stodir holds a 19.8% stake, continued to invest in and produce Icelandic television content and concluded distribution agreements with HBO, Paramount and other major international content providers. Towards the end of the year, a new organisational structure was introduced, and Síminn entered into agreements to acquire Greiðslumiðlun Íslands, a payment solution provider, Opin Kerfi, IT company, and Öryggismiðstöð Íslands, a provider of security and welfare technology, all subject to approval by the Competition Authority. No changes were made to Stodir's shareholding in Síminn during the year.

First Water, a land-based salmon farm operation in which Stodir holds a 33.1% stake, completed construction of its 25-metre tanks during the year, increasing production capacity to 5,000 tonnes of head-on-gutted (HoG) salmon. The company was among the first land-based aquaculture operators globally to successfully farm and harvest 5 kg HoG salmon. To support its continued development and growth, First Water concluded two equity offerings during the year and strengthened and increased its bank funding. Stodir participated in both equity offerings, acquiring a total of 23.6 million shares in the first and fourth quarters.

Blue Lagoon, a spa and wellness hotel operator in which Stodir holds a 7.3% stake, demonstrated strong operational resilience following two years of uncertainty caused by seismic activity. Operational disruptions were limited to only two days during the year, compared to 76 days in 2024 and 52 days in 2023. Development of Blue Lagoon's operations continued, with the locker room facilities fully refurbished, new experience areas brought into operation and a new parking facility completed. Development projects in Kerlingarfjöll, Hoffell and Þjórsárdalur continued to progress, and preparations for a potential listing on the main market of the Icelandic Stock Exchange were resumed. No changes were made to Stodir's shareholding in the Blue Lagoon during the year.

Arctic Adventures, an Icelandic tourism company in which Stodir holds a 41.6% stake, continued to deliver strong growth, with increases in both revenues and profitability. During the year, Happy Campers, a campervan rental company, and Fjaðrárgljúfur, one of Iceland's most visited natural attractions, were added to the group, further strengthening the company's position in the Icelandic tourism market. Towards the end of the year, Arctic Adventures announced that it had entered into merger discussions with Kynnisferðir, a transaction that, if completed, would create one of the leading integrated tourism platforms in Iceland. During the second quarter, Stodir increased its ownership by acquiring 107.5 million shares in Arctic Adventures.

Endorsement by the Board of Directors and CEO

The Board of Directors considers the overall performance of the portfolio in 2025 to be highly satisfactory and reflective of the resilience and long-term value potential of Stodir's investments. The outlook remains positive, with continued emphasis on operational excellence, disciplined capital allocation and active ownership to support sustainable growth and value creation.

The total number of shares issued at year-end 2025 was 12,500, and the outstanding shares at year-end 2025 were ISK 12,466 million (2024: ISK 12,448). During the year, the Company acquired its own shares in the nominal amount of ISK 62.5 million, see note 13 in the financial statement. The number of employees at year-end was 8 (2024: 5). The number of shareholders at year-end was 114 (2024:106).

The Board of Directors proposes paying a dividend of ISK 1,200 million to shareholders for the 2025 financial year. Reference is made to the financial statements for further information on the allocation of profit and other changes in equity.

Non-financial information

Stodir is an investment company with the primary objective of creating long term value through active ownership. The Company's key assets consist of shareholdings in Arion Bank, First Water, Kvika Bank, Síminn, Blue Lagoon and Arctic Adventures. Other assets are primarily unlisted shares and cash. Reference is made to note 14 to the Financial Statements for information on financial risk management.

Stodir does not currently have a formal sustainability policy and does not publish separate sustainability-related information, including environmental, social or governance disclosures. The Company will, however, continue to work towards integrating sustainability considerations into its decision-making processes and active ownership practices, and will formalise such matters as deemed appropriate.

The Corporate Governance Statement is presented as an appendix to the Financial Statements.

Endorsement by the Board of Directors and CEO

Statement by the board of directors and the CEO

The annual financial statements for the year ending 31 December 2025 have been prepared in accordance with the International Financial Reporting Standards (IFRS) as endorsed by the European Union, and additional requirements of the Icelandic Financial Statements Act no. 3/2006.

According to the best of our knowledge, it is our opinion that the annual financial statements give a true and fair view of the financial performance of the Company for the year 2025, its assets, liabilities and financial position as at 31 December 2025.

Further, in our opinion, the financial statements and the endorsement by the Board of Directors and the CEO give a fair view of the development and performance of the Company's operations and its financial position and fairly describe the principal risks and uncertainties faced by the Company, as outlined in the notes to the financial statements.

The Board of Directors and the CEO have today discussed the financial statements of Stodir hf. for the year 2025 and confirm them by means of their signatures.

Notes

1. General information

Stodir hf. (the Company) is a private limited company and complies with the Icelandic limited companies law no. 2/1995.

Stodir hf. is an investment company whose purpose is to invest in assets for the benefit of its shareholders. The Company is domiciled in Iceland and its legal residence is Sudurgata 12, 101 Reykjavik.

2. Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and additional requirements from the Icelandic Financial Statements act no. 3/2006 (IS GAAP).

The financial statements have been prepared on a historical cost basis, except for investments in shares, mutual funds and derivative instruments, which have been measured at fair value. For further details, see note 16 on accounting policies. The financial statements are presented in Icelandic krona (ISK), which is the Company's functional currency. All amounts are in thousands of ISK, unless otherwise stated.

To enhance the informational value of the financial statements, disclosures in the notes are based on relevance and significance. Accordingly, information that is not considered important or relevant to the users of the financial statements is not disclosed.

The financial statements were approved by the Board of Directors of Stodir on 5 February 2026.

3. New and amended IFRSs

In the current year, the Company has applied the following amendments to IFRS issued by the International Accounting Standards Board (IASB) that are mandatorily effective for annual reporting periods beginning on or after 1 January 2025:

- | | |
|---|--|
| - IAS 21 The Effects of Changes in Foreign Exchange Rates | Amendments on how to assess whether a currency is exchangeable, and how to determine the exchange rate when it is not. |
|---|--|

The adoption of the above amendments did not have any material impact on the disclosures or on the amounts reported in these financial statements.

The Company has not early adopted the following new standards or amendments to IFRSs that have been issued and are available for early adoption:

	Effective date
- IFRS 18 Presentation and Disclosures in Financial Statements	1 January 2027
- IFRS 19 Subsidiaries without public accountability: Disclosures	1 January 2028

Management expects that the adoption of IFRS 18 will affect the presentation of information in the financial statements, but will not impact accounting estimates. Preparations for the adoption of the standard are ongoing, although the final impact is not yet known. IFRS 18 has not yet been endorsed by the European Union; endorsement is expected during the first quarter of 2026. Management also considers that adoption of IFRS 19, as well as amendments to other standards not yet effective, will have no or an insignificant impact on the financial statements.

Notes

4. Critical accounting estimates and assumptions

In applying the Company's accounting policies, which are described in note 16, the directors are required to make estimates and assumptions regarding the carrying amounts of assets and liabilities that are not readily observable from other sources. The estimates and associated assumptions are based on historical experience and other factors considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets relate to fair value measurement of unlisted shares. The Company utilises the most appropriate valuation model for each investment, or the last price if relevant. Refer to note 10 for further information.

5. Net income from investment securities

	2025	2024
Changes in fair value and dividend income	7,245,278	4,396,308

For information regarding fair value measurement of financial assets, refer to note 10.

6. Interest income

	2025	2024
Interest income from bank deposits	302,224	244,967
Interest income from loans and bond assets	18,998	20,588
Total interest income	<u>321,222</u>	<u>265,555</u>

Interest income from loans and bond assets is recognised in accordance with the effective interest rate method.

7. Operating expenses

	2025	2024
Employee salaries and benefits	360,635	227,031
Board of Directors' fees	25,800	24,000
Pension fund contributions	42,857	25,333
Other salary-related expenses	28,927	23,124
Total salaries and related expenses	<u>458,219</u>	<u>299,487</u>
Other operating expenses	277,110	187,092
Total operating expenses	<u>735,330</u>	<u>486,579</u>

Notes

8. Income tax

Income tax has been calculated in accordance with Icelandic tax laws. The amount charged to the income statement is ISK 0 (2024: 0). No income tax is payable in the year 2026 (2025: 0).

Active income tax is analysed as follows:

	2025		2024	
	Amount	%	Amount	%
Profit before taxes	6,830,186		4,149,579	
Tax rate	1,366,037	20.0%	871,412	21.0%
Tax exempt revenues	(1,409,486)	(20.6%)	(996,765)	(24.0%)
Non-deductible expenses	4	0.0%	1,632	0.0%
Change in estimate of tax assets	9,762	0.1%	90,798	2.2%
Expired carry-forward tax losses	21,220	0.3%	0	0.0%
Other items	12,462	0.2%	32,924	0.8%
Income tax expense in statement of P&L	<u>0</u>	0.0%	<u>0</u>	0.0%

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which deductible temporary differences or tax losses can be utilised. The Company's income predominantly comprises fair value gains on investments and dividend income, which are exempt from taxation under applicable tax legislation. As a result, it is not considered probable that sufficient taxable profits will arise in the foreseeable future to utilise the tax losses carried forward. Accordingly, no deferred tax asset has been recognised in respect of tax losses amounting to ISK 2,803 million at year-end 2025. The Company's total tax loss carry-forwards are estimated at ISK 14,014 million at year-end 2025.

The Company's carry-forward tax losses can be utilised against taxable profits as follows:

Can be utilised until 2027	62,906
Can be utilised until 2029	13,411,862
Can be utilised until 2033	192,561
Can be utilised until 2034	180,473
Can be utilised until 2035	166,550
Total carry-forward tax losses	<u>14,014,351</u>

9. Financial instruments

Classes of financial assets and liabilities are as follows:

31 December 2025

	Mandatorily at fair value through P&L	Amortised cost	Total
Financial assets			
Cash and cash equivalents		4,233,943	4,233,943
Investments at fair value through profit or loss	53,776,674		53,776,674
Loans and other receivables		255,890	255,890
Total	<u>53,776,674</u>	<u>4,489,834</u>	<u>58,266,508</u>

Financial liabilities

Trade and other payables	204,969	204,969
--------------------------------	---------	---------

Notes

9. Financial instruments (continued)

31 December 2024

	Mandatorily at fair value through P&L	Amortised cost	Total
Financial assets			
Cash and cash equivalents		3,004,908	3,004,908
Investments at fair value through profit or loss	48,902,563		48,902,563
Loans and other receivables		318,829	318,829
Total	48,902,563	3,323,738	52,226,301
Financial liabilities			
Trade and other payables		73,982	73,982

10. Investments at fair value through profit or loss

Investments at fair value through profit or loss are specified as follows:	31.12.2025	31.12.2024
Shares listed on a stock exchange	25,601,435	26,563,621
Unlisted shares	28,175,239	21,983,526
Mutual funds	0	355,416
Total investments at year-end	53,776,674	48,902,563

Changes in investments during the year are specified as follows:

Carrying value at beginning of the year	48,902,563	44,493,042
Investments during the year	3,255,653	916,294
Disposals during the year	(2,735,436)	0
Unrealised changes in fair value recognised in the income statement	4,353,894	3,493,228
Carrying value at year-end	53,776,674	48,902,563

Itemisation of investments at 31 December 2025

Fair value hierarchy

Fair value is divided into three categories depending on whether the methods used to determine fair value are based on market data or not. Market data reflects market information from independent sources. Fair values that are not based on market data are based on assumptions made by the Company. Based on these two types of variables, fair value tiering is determined as follows:

- Level 1 - quoted prices in active markets for identical assets or liabilities.
- Level 2 - valuation techniques for which all significant inputs are market observable, either directly or indirectly, for example Reibor interest rate curve or counterparty credit rating.
- Level 3 - valuation techniques which include significant inputs that are not based on observable market data. Here are mostly shares and bonds that are valued based on data that is unavailable on the market.

The following tables show the division of steps in determining the fair value of the financial assets that are entered at fair value in the Company's financial statements. The Company does not publish the fair value of other financial assets, as their book value is considered to reflect the fair value.

31 December 2025	Level 1	Level 2	Level 3	Total
Shares listed on a stock exchange	25,601,435			25,601,435
Unlisted shares			28,175,239	28,175,239
Total investments at FVTPL	<u>25,601,435</u>	<u>0</u>	<u>28,175,239</u>	<u>53,776,674</u>

31 December 2024

Shares listed on a stock exchange	26,563,621			26,563,621
Unlisted shares			21,983,526	21,983,526
Mutual funds		355,416		355,416
Total investments at FVTPL	<u>26,563,621</u>	<u>355,416</u>	<u>21,983,526</u>	<u>48,902,563</u>

Notes

10. Investments at fair value through profit or loss (continued)

Financial asset	Valuation technique	Significant unobservable inputs
Shares in listed companies	Quoted bid prices in an active market.	N/A
Unlisted shares	Income approach or price in recent transaction with shares in the company if information is available and reliable. Under the income approach the discounted cash flow method was used to capture the present value of the expected future economic benefits to be derived from the ownership of these investees.	Long-term revenue growth rates, long-term pre-tax operating margin, weighted average cost of capital.
Mutual funds	Last published share price or adjusted share price*	N/A
Swap & FX swap agreements	Fair value on swap agreements is the net change in the value of the underlying asset relative to the notional amount, reflecting accrued interest to date. Fair value of FX swap agreements reflects the difference between the contracted forward rate and the market forward rate at the reporting date.	N/A

*If the last published share price is not considered reflective of fair value at the reporting date the Company adjusts the share price according to its own estimate and/or information from fund managers.

11. Subsidiary

The Company holds a 100% ownership interest in Stodir UK Ltd., a subsidiary incorporated in 2025. The entity is newly established and is currently in the early stages of setting up its operations. No investments have been made in the subsidiary to date. As the subsidiary is immaterial to the financial statements, the Company does not prepare consolidated financial statements.

12. Leases

The Company is party to a lease agreement for its head offices in Reykjavík. The lessor is a related party and the lease has an indefinite duration. The lease period has been determined to be 7 years from the date of implementation (until December of 2029).

Lease liabilities and right-of-use assets are itemised as follows for the years 2025 and 2024:

	2025		2024	
	Lease liabilities	RoU-assets	Lease liabilities	RoU-assets
Balance at beginning of year	(83,711)	80,271	(93,872)	91,916
Payments / Depreciation	15,597	(16,462)	14,275	(15,758)
Indexation	(3,647)	3,647	(4,113)	4,113
Balance at year-end	(71,760)	67,456	(83,711)	80,271

Interest expense arising from lease liabilities amounted to ISK 3.5 million for the year (2024: ISK 4.1 million). Depreciation of the right-of-use asset is presented with other operating expenses in the statement of profit or loss and other comprehensive income. The right-of-use assets are presented within operating assets in the statement of financial position. Total lease payments amounted to ISK 19.1 million (2024: ISK 18.4 million).

Notes

13. Equity

Share capital

Share capital at year-end amounted to ISK 12,500 million according to the Articles of Association. Each share is in the nominal amount of 1 ISK.

During the year 2025, the Company acquired its own shares in the nominal amount of ISK 62.5 million. The purchase price amounted to ISK 267.3 million.

The Company sold its own shares in the nominal amount of ISK 80.4 million in exchange for shares in Arctic Adventures at a total transaction value of ISK 343.8 million.

Treasury shares at year-end amounted to ISK 33.8 million, representing 0.27% of the Company's share capital. Consequently, the total number of outstanding shares at 2025 year-end was ISK 12,466 million.

Share premium

Share premium represents the excess of payments over the nominal value that shareholders have paid for shares issued by the Company, less any amounts paid in excess of nominal value for shares repurchased by the Company. Share premium arising from paid-in share capital may legally be offset against the accumulated deficit.

Other restricted equity

Statutory reserve

A statutory reserve is established in accordance with Act No. 2/1995 on Limited Liability Companies. The Act stipulates that at least 10% of the Company's profit, not used to offset prior years' losses or allocated to other reserves required by law, shall be transferred to the statutory reserve until it reaches 10% of the Company's share capital. Once that threshold has been reached, a minimum of 5% shall continue to be allocated annually until the reserve amounts to 25% of the Company's share capital.

Unrealised fair value changes of investments

According to the Financial Statements Act No. 3/2006, the Company recognises unrealised fair value gains on financial assets measured at fair value through profit or loss as a restricted reserve within equity, which is not available for distribution as dividends.

14. Financial risk management

Overview

Management monitors and analyses financial risks in the operations of the Company. Methods for financial risk management are reviewed on a regular basis to analyse any changes in the market or the Company's operations. The following risks have been identified for the Company's financial instruments:

- credit risk
- liquidity risk
- market risk

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31.12.2025	31.12.2024
Cash and cash equivalents	4,233,943	3,004,908
Loans and other receivables	130,589	266,358
Maximum exposure to credit risk at year-end	<u>4,364,533</u>	<u>3,271,267</u>

Notes

14. Financial risk management (continued)

Loans and other receivables measured at amortised cost are considered to have low credit risk.

The Company considers that credit risk arising from cash and cash equivalents, which consist mainly of bank deposits with reputable financial institutions, is limited. No impairment has been recognised in respect of these financial assets, as any expected credit losses would be immaterial.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk is considered minimal at 31 December 2025 and 2024 as the Company's cash and financial assets well exceed its financial liabilities.

Market risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and equity prices will affect the Company's income or the value of its holdings of financial instruments.

Price risk

The Company is exposed to price risk primarily through its investments measured at fair value through profit or loss, due to uncertainty regarding future price movements of those investments. When financial instruments measured at fair value are denominated in foreign currencies, their fair values may also fluctuate due to changes in exchange rates (see Currency risk below).

The Company's policy is to manage price risk through diversification and the careful selection of shares and other financial instruments. For information regarding the Company's exposure to investments measured at fair value through profit or loss, and for further details on fair value measurement, refer to note 10.

The composition of investments at fair value through profit or loss at 31 December is as follows:

	2025	2024
Shares listed on a stock exchange	48%	54%
Unlisted shares	52%	45%
Mutual funds	0%	1%
	<u>100%</u>	<u>100%</u>

Interest rate risk

The Company is exposed to interest rate risk through its variable interest-bearing on-demand bank balances. An increase in interest rates of 100 basis points at 31 December would positively affect the Company's pre-tax profit and equity by ISK 42.3 million (2024: ISK 30 million). A decrease in interest rates of 100 basis points would have a negative effect on the Company's pre-tax profit and equity by the same amounts. This analysis assumes that all other variables remain constant.

Currency risk

The Company holds bank account balances in foreign currencies (other than ISK) and has entered into forward contracts to sell foreign currencies at fixed rates. Consequently, the Company is exposed to the risk that movements in the exchange rate of ISK relative to those foreign currencies may adversely affect the Company's operations.

31 December 2025	EUR	USD	GBP	Other
Cash and cash equivalents	41,018	1,413	111,277	320
Investments	0	607,203		0
Net position	<u>41,018</u>	<u>608,616</u>	<u>111,277</u>	<u>320</u>

Notes

14. Financial risk management (continued)

31 December 2024	EUR	USD	GBP	Other
Cash and cash equivalents	39,342	143,746	143,746	446
Investments	0	429,032	140,141	0
Net position	39,342	572,779	283,888	446

Sensitivity analysis

A 10% strengthening of the ISK against the following currencies at 31 December would have increased (decreased) pre-tax profit and equity by the amounts shown below. A 10% weakening of the ISK against these currencies would have had an equal but opposite effect. This analysis assumes that all other variables remain constant.

	2025	2024
EUR	(4,102)	(3,934)
USD	(60,862)	(57,278)
GBP	(11,128)	(28,389)
Other currencies	(32)	(45)

15. Related parties

Definition of related parties

The Company has a related-party relationship with its controlling shareholder, its Board of Directors, the CEO and the CFO. One shareholder, the parent company S121 ehf., held more than 50% of the voting rights at year-end 2025, owning 61% of the shares in the Company.

Transactions with related parties are conducted at arm's length.

At year-end 2025, loans receivable from key employees amounted to ISK 0 (2024 year-end: ISK 265 million). Interest income on loans to key employees for the year 2025 amounted to ISK 4.4 million (2024: ISK 27.5 million). The loans were fully repaid during the first half of 2025.

The Company has a lease agreement with an entity controlled by a member of the Board of Directors. For further information regarding the lease, refer to note 12.

Salaries paid to the CEO amounted to ISK 100.0 million (2024: ISK 75.0 million). Salaries paid to the Board of Directors amounted to ISK 25.8 million in 2025 (ISK 24 million in 2024).

16. Significant accounting policies

Net income from investment securities

Net income from investment securities comprises gains or losses on the sale of shares, changes in the fair value of investments recognised at fair value through profit or loss, and dividend income. Dividend income is recognised in profit or loss on the date the Company's right to receive the dividend is established.

Interest income

Interest income is from bank balances and loans and bond assets recognised in profit or loss using the effective interest method.

Interest expense

Interest expense relates mainly to lease liabilities and is recognised in profit or loss using the effective interest method.

Notes

16. Significant accounting policies (continued)

Foreign currency

Foreign currency transactions are translated into ISK using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the statement of financial position date. Foreign exchange gains and losses relating to financial assets measured at fair value through profit or loss are presented in the statement of comprehensive income within "Net income from investment securities". Foreign exchange gains and losses arising on other monetary assets and liabilities (not measured at fair value through profit or loss) are presented in the statement of comprehensive income within "Net foreign exchange difference".

Financial assets

Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

The Company's equity securities presented in the statement of financial position as 'Investments measured at fair value through profit or loss' are recognised at fair value through profit or loss as the Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

Derivative contracts are measured at fair value through profit or loss. Derivative contracts that have a positive fair value are presented as assets in the statement of financial position as 'Investments measured at fair value through profit or loss'.

Financial assets at amortised cost are debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company recognises its loans and bond assets at amortised cost.

Recognition, derecognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Subsequent to initial recognition, all financial assets at fair value through profit or loss are measured at fair value. Dividend income and gains and losses arising from changes in the fair value 'Investments measured at fair value through profit or loss' are presented in the statement of profit or loss and other comprehensive income within 'Net income from investment securities' in the period in which they arise.

Interest on bond assets at amortised cost is recognised in the statement of profit or loss and other comprehensive income in accordance with the effective interest rate method.

Notes

16. Significant accounting policies (continued)

Impairment of financial assets at amortised cost

The Company's loans and bond assets, other receivables (excluding prepayments), and cash and cash equivalents are within the scope of the IFRS 9 expected credit loss model. Loans and bond assets, measured at amortised cost, are due from parties related to the entity. The Company measures expected credit losses on these assets on an individual basis. The Company considers that credit risk from other receivables of immaterial amounts and cash and cash equivalents, which consist mainly of bank balances with respective banks, is limited.

Financial liabilities

Classification

Financial liabilities are classified as measured at amortised cost or fair value through profit or loss. Derivative contracts are measured at fair value through profit or loss. Derivative contracts that have a negative fair value are presented as liabilities in the statement of financial position. Other financial liabilities are recognised at amortised cost.

Recognition, derecognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liabilities are added to or deducted from the fair value of the financial liabilities, as appropriate, on initial recognition.

Changes in fair value of financial liabilities measured at fair value through profit or loss (such as derivatives with negative fair value) are recognised in the statement of profit or loss and other comprehensive income in the period in which they arise.

Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Investments in subsidiaries

Investments in subsidiaries are recognised at cost on initial recognition. The carrying amount is subsequently adjusted to reflect the Company's share of the subsidiaries' profit or loss after the date of acquisition. The cost of an investment in a subsidiary consists of the purchase price and all direct costs attributable to acquiring the investment.

The Company's share of the subsidiaries' profit or loss is recognised in the statement of profit or loss and other comprehensive income and presented within 'Operating expenses'. Dividends received from subsidiaries reduce the carrying amount of the investment.

Investments in subsidiaries are assessed for impairment when indicators of impairment exist. Impairment losses are recognised in the statement of profit or loss and other comprehensive income.

Operating assets

Operating assets are recognised at cost, less accumulated depreciation. The cost of operating assets consists of the purchase price and all direct costs of bringing the property into a revenue-generating state. Operating assets are amortised on a straight-line basis over their estimated useful lives. Depreciation is recognised in the statement of profit or loss and other comprehensive income and presented with 'Operating expenses'.

Notes

16. Significant accounting policies (continued)

Leases

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by the Company's incremental borrowing rate. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Income tax

The income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before income as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

Corporate governance statement

The board of directors of Stodir hf. (the Company) emphasises the importance of maintaining good management practices and aims to comply with the Guidelines on Corporate Governance issued by the Iceland Chamber of Commerce, NASDAQ OMX Iceland and the Confederation of Icelandic Employers. The Company does not follow the guidelines in all cases, and deviations from them are explained below.

Internal control and risk management

The Company has eight employees, and internal control and risk management take that number into account. A large part of the operations is outsourced, including accounting and payroll processing. This is intended to ensure that the segregation of duties is as extensive as possible, given the limited number of employees. Segregation of duties is an important control element according to the definition of internal control. The Company's board of directors must ensure that there is sufficient control over the handling of funds and that accounting and settlements are in proper order. Management control is active, but the company's board meets regularly to discuss its issues. Sharing information is easy and efficient due the limited number of employees.

Risk management is informal at the Company, and no formal risk policy has been established. In recent years, the Company has primarily invested in shares in both listed and unlisted companies in the domestic securities market. The board receives information about the development of the company's portfolio at regular board meetings. The Company's main risk is market risk; see note 14 for an explanation of the Company's credit risk, liquidity risk, and market risk. The board does not intend to set a risk policy for the Company, given that its financial strength is significant and it has no interest-bearing debt.

Nomination committee and subcommittees

At the Company, there are no board subcommittees and no nomination committee. The board does not intend to establish a nomination committee or subcommittees of the board at this time.

Board of directors

In 2025, 20 board meetings were held, and all board members were present at each meeting.

The board has established operating rules that are not published publicly. The board has not conducted an annual formal performance evaluation.

The board has not established a policy on diversity among its members.

The board proposes a remuneration policy for Stodir to its shareholders annually.

Board members

Sigurjon Palsson, born in 1972, is the chairman of Stodir's board of directors and has been a member of the Company's board since 2009, with a one-year break from 2016 to 2017. He was the chairman of the board from 2014 to 2016 and since 17 April 2021. Sigurjon holds an engineering degree from the University of Iceland and has a master's degree in management from KTH and in logistics from MIT. He is a certified securities trader. Sigurjon served as the COO of Arion Bank. from 2011 to 2017. Sigurjon is one of the founders of PayAnalytics, where he served as the CEO from 2017 until the company was acquired by beqom in 2023. Since 2023, he has served as the Chief Alliances Officer at beqom.

Sigurjon holds an indirect holding in Stodir through his company Þanki ehf., which owns a 0.2% shareholding in Stodir. Sigurjon is considered an independent board member.

Ari Fenger, born in 1980, has been a member of the board since 2022. Since 2006, Ari has been the CEO of Nathan hf. Ari sat as president of the Icelandic Chamber of Commerce and the University Council of Reykjavik University from 2020-2024. He sits on the board of the American-Icelandic Chamber of Commerce.

Ari has an indirect holding in Stodir through a holding in Helgafell ehf., which owns a stake in S121 ehf. S121 ehf. holds a 61.0% shareholding in Stodir, therefore, Ari is considered a dependent board member.

Corporate governance statement

Board members (continued)

Magnus Armann, born in 1974, has been a member of the board since 2022. Magnus has served on numerous boards of listed and unlisted companies in Iceland and abroad. Magnus is currently a member of the boards of GGH ehf., Admiral Reykjavik ehf., Sulur Reykjavik ehf., Bjartavik ehf., Ketilsker ehf., Von Hardfiskverkun ehf., and S121 ehf.

Magnus has an indirect holding in Stodir through his company GGH ehf., which owns 0.003% share in Stodir. Magnus has an indirect holding in Stodir through his company GGH ehf., which owns shares in M&M Capital ehf., which holds a 3.53% shareholding in Stodir, and S121 ehf., which holds a 61.0% shareholding in Stodir. Magnus is therefore considered a dependent board member.

CEO

Jon Sigurdsson, born in 1978, has been the CEO of Stodir hf. from April 2021. Jon has a B.Sc. degree in business administration from the University of Reykjavik. From 2005 until 2007, he was a managing director at Stodir hf., and from 2007 to 2010 he was the CEO of Stodir hf. Jon has been the managing director of Helgafell ehf. since 2013, chairman of the board of S121 ehf. since 2017 and chairman of the board of Siminn hf. since 2019. Jon also sits on the board of Blue Lagoon hf. Jon has been on the boards of numerous other listed and unlisted companies, both domestically and abroad, including Refresco Group B.V. from 2006 to 2018 and N1 hf. (later Festi) from 2014 to 2018.

Jon has an indirect holding in Stodir through his holdings in Helgafell ehf. and Straumnes Radgjof ehf., both of which hold shares in S121 ehf., which holds 61.0% shareholding in Stodir. In addition, Straumnes Radgjof ehf. directly holds a 0.01% share in Stodir.

The CEO is responsible for the daily operations of the Company in line with its Articles of Association, policies and decisions made by the Board. The CEO shall work on policy making and advancement of the Company in addition to organising and following up on its daily operations. Furthermore, the CEO's role is to ensure that the Company's operations are in line with current legislation and regulations at all times.

Communication between shareholders and the board of directors

Communication between the shareholders and the Company takes place at the annual general meeting, which is normally held in the spring, and at an information meeting, which is normally held in the autumn. In recent years, all shareholders have also been sent quarterly e-mail updates on the Company's operations and finances.

Violation of laws and regulations

During the year, neither Courts nor supervisory or adjudicating entities have handed down judgments or rulings that the Company has violated laws or regulations in its activities, nor is there knowledge of any such violations.

Álit

Við höfum endurskoðað meðfylgjandi ársreikning Stoða hf. fyrir árið 2025. Ársreikningur hefur að geyma rekstrarreikning, efnahagsreikning, eiginfjárfirlit, sjóðstreymisfirlit, upplýsingar um mikilvægar reikningsskilaaðferðir og aðrar skýringar.

Það er álit okkar að ársreikningurinn gefi glögga mynd af afkomu félagsins á árinu 2025, efnahag þess 31. desember 2025 og breytingu á handbæru fé á árinu 2025, í samræmi við alþjóðlega reikningsskilastaðla eins og þeir hafa verið samþykktir af Evrópusambandinu og viðbótar kröfur í lögum um ársreikninga.

Grundvöllur fyrir álit

Endurskoðað var í samræmi við alþjóðlega endurskoðunarstaðla. Ábyrgð okkar samkvæmt þeim stöðlum er nánar lýst í kaflanum um ábyrgð endurskoðanda hér að neðan. Við erum óháð félaginu í samræmi við alþjóðlegar siðareglur fyrir endurskoðendur sem og aðrar siðareglur sem eru viðeigandi við endurskoðun á Íslandi og höfum við uppfyllt ákvæði þeirra reglna. Við teljum að við endurskoðunina höfum við aflað nægilegra og viðeigandi gagna til að byggja álit okkar á.

Ábyrgð stjórnar og forstjóra á ársreikningnum

Stjórn og forstjóri eru ábyrg fyrir gerð og framsetningu ársreikningsins í samræmi við alþjóðlega reikningsskilastaðla eins og þeir hafa verið samþykktir af Evrópusambandinu og viðbótar kröfur í lögum um ársreikninga. Stjórn og forstjóri eru einnig ábyrg fyrir því innra eftirliti sem nauðsynlegt er varðandi gerð og framsetningu ársreikningsins, þannig að hann sé án verulegra annmarka, hvort sem er vegna sviksemi eða mistaka.

Við gerð ársreikningsins eru stjórn og forstjóri ábyrg fyrir því að meta rekstrarhæfi félagsins. Ef við á, skulu stjórn og forstjóri setja fram viðeigandi skýringar um rekstrarhæfi og hvers vegna þau ákváðu að beita forsendunni um rekstrarhæfi við gerð og framsetningu ársreikningsins, nema stjórn og forstjóri hafi ákveðið að leysa félagið upp eða hætta starfsemi, eða hafi enga aðra raunhæfa möguleika en að gera það.

Stjórn og forstjóri skulu hafa eftirlit með gerð og framsetningu ársreikningsins.

Ábyrgð endurskoðanda á endurskoðun ársreikningsins

Markmið okkar er að afla nægjanlegrar vissu um að ársreikningurinn sé án verulegra annmarka, hvort sem er af völdum sviksemi eða mistaka og að gefa út áritun sem felur í sér álit okkar.

Nægjanleg vissu er þó ekki trygging þess að endurskoðun framkvæmd í samræmi við alþjóðlega endurskoðunarstaðla muni uppgötva allar verulegar skekkjur séu þær til staðar. Skekkjur geta orðið vegna mistaka eða sviksemi og eru álitnar verulegar ef þær gætu haft áhrif á fjárhagslega ákvarðanatöku notenda ársreikningsins, einar og sér eða samanlagðar.

Áritun óháðs endurskoðanda

Endurskoðun okkar í samræmi við alþjóðlega endurskoðunarstaðla byggir á faglegri dómgreind og beitum við gagnrýnni hugsun við endurskoðunina. Við framkvæmum einnig eftirfarandi:

- Greinum og metum hættuna á verulegri skekkju í ársreikningnum, hvort sem er vegna mistaka eða sviksemi, hönnum og framkvæmum endurskoðunaraðgerðir til að bregðast við þeim hættum og öflum endurskoðunargagna sem eru nægjanleg og viðeigandi til að byggja álit okkar á. Hættan á að uppgötva ekki verulega skekkju vegna sviksemi er meiri en að uppgötva ekki skekkju vegna mistaka, þar sem sviksemi getur falið í sér samsæri, skjalafals, misvísandi framsetningu ársreiknings, að einhverju sé viljandi sleppt eða að farið sé framhjá innri eftirlitsaðgerðum.
- Öflum skilnings á innra eftirliti, sem snertir endurskoðunina, í þeim tilgangi að hanna viðeigandi endurskoðunaraðgerðir, en ekki í þeim tilgangi að veita álit á virkni innra eftirlits félagsins.
- Metum hvort reikningsskilaaðferðir sem notaðar eru, og tengdar skýringar, séu viðeigandi og hvort reikningshaldslegt mat stjórnenda sé raunhæft.
- Ályktum um notkun stjórnenda á forsendunni um rekstrarhæfi og metum á grundvelli endurskoðunarinnar hvort verulegur vafi leiki á rekstrarhæfi eða hvort aðstæður séu til staðar sem gætu valdið verulegum efasemdum um rekstrarhæfi. Ef við teljum að verulegur vafi leiki á rekstrarhæfi ber okkur að vekja sérstaka athygli á viðeigandi skýringum ársreikningsins í áritun okkar. Ef slíkar skýringar eru ófullnægjandi þurfum við að víkja frá fyrirvaralausri áritun. Niðurstaða okkar byggir á endurskoðunargögnum sem aflað er fram að dagsetningu áritunar okkar. Engu að síður geta atburðir eða aðstæður í framtíðinni valdið óvissu um rekstrarhæfi félagsins.
- Metum í heild sinni hvort ársreikningurinn gefi glögga mynd af undirliggjandi viðskiptum og atburðum, metum framsetningu, uppbyggingu, innihald og þar með talið skýringar við ársreikninginn með tilliti til glöggrar myndar.

Við höfum upplýst stjórn um áætlað umfang og tímasetningu endurskoðunarinnar og þau atriði sem komu upp í endurskoðun okkar, þar á meðal verulega annmarka á innra eftirliti sem koma fram í endurskoðuninni, ef við á.

Kópavogur, 5. febrúar 2026

Deloitte ehf.

Ingvi Björn Bergmann
Löggiltur endurskoðandi

Skýrsla og yfirlýsing stjórnar og forstjóra

Ársreikningur félagsins hefur að geyma ársreikning Stoða hf. („Stoðir“ eða „félagið“). Stoðir er fjárfestingafélag, að meirihluta í eigu einkafjárfesta, sem leggur áherslu á að fjárfesta til langs tíma og hefur virka aðkomu að fjárfestingum sínum.

Samkvæmt rekstrarreikningi fyrir árið 2025 nam hagnaður ársins 6.830 milljónum króna (2024: 4.150 milljónir króna). Samkvæmt efnahagsreikningi nam eigið fé félagsins í árslok 2025 58.062 milljónum króna (2024: 52.155 milljónir króna).

Árið 2025 einkenndist af áframhaldandi verðmætasköpun í eignasafni Stoða, með sterkri rekstrarafkomu, stefnumarkandi viðskiptum og virku eignarhaldi. Áhersla var áfram lögð á að styrkja lykileignir, nýta vaxtartækifæri, bæta fjármagnsskipan og efla góða stjórnarhætti.

Arion banki, þar sem Stoðir fer með 5,2% eignarhlut, hélt áfram innleiðingu á stefnumarkandi verkefnum á árinu og skilaði jafnframt mjög góðri rekstrarniðurstöðu. Arion banki hóf samrunaviðræður við Íslandsbanka sem ekki leiddu til samkomulags. Síðar á árinu hófust viðræður við Kviku banka sem leiddu til samrunasamkomulags um sumarið. Samruninn við Kviku banka er enn í vinnslu og niðurstaða forviðræðna við Samkeppniseftirlitið er væntanleg snemma árs 2026. Þá lauk Arion banki einnig sölu á Arnarlandi. Á árinu seldi Stoðir 8 milljónir hluta að nafnverði í Arion banka sem samsvarar um 0,6% af útgefnu hlutafé bankans.

Kvika banki, þar sem Stoðir fer með 5,3% eignarhlut, náði umtalsverðum árangri í framkvæmd nokkurra lykilverkefna á árinu. Sala TM, dótturfélags Kviku banka, til Landsbankans var kláruð í febrúar og var söluandvirðinu að stórum hluta skilað til hluthafa í formi arðgreiðslna og endurkaupa á eigin bréfum. Á árinu lýstu bæði Arion banki og Íslandsbanki yfir áhuga á mögulegum samruna við bankann, en stjórn Kviku banka ákvað síðar að hefja samrunaviðræður við Arion banka. Auk þess hélt bankinn áfram að byggja upp og efla enn frekar starfsemi sína í Bretlandi. Á árinu seldi Stoðir 100 milljónir hluta að nafnverði í Kviku banka sem samsvarar um 2,2% af útgefnu hlutafé bankans.

Síminn, þar sem Stoðir fer með 19,8% eignarhlut, hélt áfram að fjárfesta í og framleiða íslenskt sjónvarpsefni ásamt því að gera dreifingarsamninga við HBO, Paramount og aðrar alþjóðlegar efnisveitur. Undir lok árs kynnti félagið nýtt skipurit og tilkynnti um kaup á Greiðslumiðlun Íslands, Opnum Kerfum og Öryggismiðstöð Íslands. Kaupin eru háð samþykki Samkeppniseftirlitsins. Engar breytingar urðu á eignarhlut Stoða í Símanum á árinu.

First Water, þar sem Stoðir fer með 33,1% eignarhlut, lauk uppbyggingu 25 metra eldiskera á árinu sem jók framleiðslugetu félagsins í 5.000 tonn af slægðum laxi (HoG). Félagið var meðal fyrstu landeldisfyrirtækja á heimsvísu til að ala landeldis lax í yfir 5 kg sláturstærð. Til að styðja við áframhaldandi uppbyggingu og vöxt, lauk First Water tveimur hlutafjárútboðum á árinu og styrkti jafnframt bankafjármögnun sína. Stoðir tóku þátt í báðum útboðunum og eignuðust samtals 23,6 milljónir hluta á fyrsta og fjórða ársfjórðungi.

Bláa Lónið, þar sem Stoðir fer með 7,3% eignarhlut, sýndi enn og aftur mikinn rekstrarlegan styrk eftir tveggja ára óvissu vegna jarðhræringa. Áhrif jarðhræringa á rekstur félagsins voru takmörkuð við tvo daga á árinu, samanborið við 76 daga árið 2024 og 52 daga árið 2023. Fjárfesting í aukinni upplifun gesta hélt áfram á árinu, með endurnýjun búningsaðstöðu, opnun nýrra upplifunarsvæða og lokafrágang nýrra bílastæða. Uppbyggingarverkefni í Kerlingarfjölum, Hoffelli og Þjórsárdal héldu áfram og undirbúningur fyrir mögulega skráningu á Aðalmarkað Kauphallarinnar var hafinn að nýju. Engar breytingar urðu á eignarhlut Stoða í Bláa Lóninu á árinu.

Arctic Adventures, þar sem Stoðir fer með 41,6% eignarhlut, hélt áfram að skila sterkum vexti, bæði í tekjum og arðsemi. Á árinu bættust Happy Campers, fyrirtæki sem sérhæfir sig í útleigu húsbíla, og Fjaðrárgljúfur, ein fjölsóttasta náttúruperla Íslands, við samstæðuna og styrktu enn frekar stöðu félagsins á íslenskum ferðaþjónustumarkaði. Undir lok árs tilkynnti Arctic Adventures að félagið hefði hafið samrunaviðræður við Kynnisferðir (Icelandia), viðskipti sem myndu skapa eitt af öflugustu ferðaþjónustufyrirtækjum landsins. Á öðrum ársfjórðungi jók Stoðir eignarhlut sinn með kaupum á 107,5 milljónum hluta í Arctic Adventures.

Skýrsla og yfirlýsing stjórnar og forstjóra

Stjórn og forstjóri telja að afkoma eignasafnsins á árinu 2025 hafi verið góð og borið vott um styrk og langtíma verðmætasköpun fjárfestinga Stoða. Horfur eru jákvæðar og verður áfram lögð áhersla á traustan rekstur, markvissa ráðstöfun fjármagns og virkt eignarhald til að stuðla að sjálfbærum vexti og áframhaldandi verðmætasköpun.

Nafnverð útgefins hlutafjár Stoða nam 12.500 milljónum króna í árslok 2025 og voru útistandandi hlutir 12.466 milljónir (2024: 12.448 milljónir). Á árinu keypti félagið eigin hluti að nafnverði 62,5 milljóna króna, sbr. skýringu 13 í ársreikningi. Fjöldi starfsfólks í árslok var 8 (2024: 5). Hluthafar félagsins voru 114 í árslok 2025 (2024: 106).

Stjórn félagsins leggur til að greiddur verði arður að fjárhæð 1.200 milljóna króna til hluthafa á árinu 2026 vegna rekstrarársins 2025 og vísar að öðru leyti til ársreiknings varðandi ráðstöfun hagnaðar og aðrar breytingar á eigin fé.

Ófjárhagsleg upplýsingagjöf

Stoðir er fjárfestingafélag með það að markmiði að skapa langtímavirði með virku eignarhaldi. Stærstu eignir félagsins eru hlutabréf í Arion banka, First Water, Kviku banka, Símanum, Bláa Lóninu og Arctic Adventures. Aðrar eignir félagsins eru að mestu í óskráðum verðbréfum og handbæru fé. Vísað er til skýringar 14 fyrir frekari upplýsingar um áhættustjórnun.

Ekki er til staðar stefna um sjálfbærni hjá félaginu og birtir það ekki uppgjör á umhverfismálum, félagslegum þáttum og stjórnaðáttum.

Stjórnaðáttayfirlýsing er í viðauka með ársreikningnum.

Skýrsla og yfirlýsing stjórnar og forstjóra

Yfirlýsing stjórnar og forstjóra

Ársreikningur félagsins fyrir árið 2025 er gerður í samræmi við alþjóðlega reikningsskilastaðla eins og þeir hafa verið samþykktir af Evrópusambandinu auk viðbótar krafna í lögum nr. 3/2006 um ársreikninga.

Samkvæmt bestu vitneskju er það álit okkar að ársreikningur félagsins gefi glögga mynd af rekstrarafkomu félagsins á árinu 2025, eignum, skuldum og fjárhagsstöðu þess þann 31. desember 2025 og breytingu á handbæru fé á árinu 2025.

Jafnframt er það álit okkar að ársreikningur félagsins, og skýrsla stjórnar og forstjóra, gefi glögga mynd af þróun og árangri í rekstri félagsins og fjárhagslegri stöðu þess.

Stjórn og forstjóri Stoða hafa í dag rætt ársreikning félagsins fyrir árið 2025 og staðfesta hann með undirritun sinni.

Reykjavík, 5. febrúar 2026

Skýringar á bls. 12-23 eru óaðskiljanlegur hluti af ársreikningnum

Skýringar

1. Almennar upplýsingar

Stoðir er hlutafélag sem starfar samkvæmt lögum nr. 2/1995 um hlutafélög. Félagið er fjárfestingafélag sem hefur það að markmiði að skapa verðmæti fyrir hluthafa sína með fjárfestingum og virkri aðkomu að rekstri félaga í eignasafni þess. Höfuðstöðvar félagsins eru að Suðurgötu 12, 101 Reykjavík.

2. Grundvöllur reikningsskilanna

Ársreikningur er gerður í samræmi við alþjóðlega reikningsskilastaðla eins og þeir hafa verið samþykktir af Evrópusambandinu og viðbótar kröfum í lögum um ársreikninga.

Ársreikningurinn er gerður eftir kostnaðarverðsaðferð að því undanskildu að verðbréf, verðbréfasjóðir og afleiðusamningar eru færðar á endurmetnu virði eða gangvirði. Sjá nánar í skýringu 16 um reikningsskilaaðferðir. Ársreikningurinn er gerður í íslenskum krónum sem er starfsrækslugjaldmiðill félagsins. Allar fjárhæðir eru færðar í íslenskum krónum nema annað sé tekið fram.

Í því skyni að auka upplýsingagildi ársreikningsins eru skýringarnar metnar á grundvelli mikilvægis þeirra og þýðingar fyrir lesandann. Því eru ekki birtar skýringar, sem hafa verið metnar sem hvorki mikilvægar eða viðeigandi fyrir lesandann.

Stjórn Stoða hf. hefur samþykkt ársreikninginn þann 5. febrúar 2026.

3. Nýir og endurbættir útgefnir reikningsskilastaðlar

Á þessu ári hefur félagið innleitt eftirfarandi alþjóðlegu reikningsskilastaðla sem Alþjóðaráð reikningsskilastaðla (IASB) hefur gefið út og er skylda að taka upp fyrir reikningsskilatímabil sem hefjast 1. janúar 2025 eða síðar:

- IAS 21 Áhrif gengisbreytinga erlendra gjaldmiðla	Leiðbeiningar varðandi mat á skiptanleika gjaldmiðla og skiptagengi
--	---

Innleiðing ofangreindra endurbóta hafði ekki veruleg áhrif á skýringum né upphæðir í ársreikning.

Félagið hefur ekki innleitt nýja eða endurbætta staðla sem hafa verið gefnir út en ekki tekið gildi fyrir gildistíma við gerð þessa reiknings:

Gildistaka

- IFRS 18 Framsetning og skýringar í reikningsskilum	1. janúar 2027
- IFRS 19 Dótturfélög án almannaábyrgðar: Skýringar	1. janúar 2028

Það er mat stjórnenda að innleiðing á IFRS 18 muni hafa áhrif á framsetningu upplýsinga í reikningsskilunum án þess að hafa áhrif á reikningshaldslegt mat. Unnið er að undirbúningi við innleiðingu staðalsins en áhrif liggi ekki fyrir. Evrópusambandið hefur ekki staðfest innleiðingu á IFRS 18 að svo stöddu en búist er við staðfestingu á honum á fyrsta ársfjórðungi ársins 2026. Þá er það jafnframt mat stjórnenda að innleiðing á IFRS 19, ásamt annarra staðla eða endurbóta sem ekki hafa tekið gildi muni hafa engin eða óveruleg áhrif á reikningsskilin.

Skýringar

4. Mat og ákvarðanir

Við gerð ársreiknings þurfa stjórnendur, í samræmi við lög um ársreikninga, að taka ákvarðanir, meta og draga ályktanir sem hafa áhrif á eignir og skuldir á reikningsskiladegi, sjá nánar um reikningsskilaaðferðir í skýringu 16. Við mat og ályktanir er byggt á reynslu og ýmsum öðrum þáttum sem taldir eru viðeigandi og mynda grundvöll þeirra ákvarðana sem teknar eru um bókfært verð eigna og skulda sem ekki liggur fyrir með öðrum hætti.

Breytingar á reikningshaldslegu mati eru færðar á því tímabili sem matið er endurskoðað ef endurskoðunin tekur aðeins til þess tímabils en á því tímabili og síðari tímabilum ef hún tekur til bæði núverandi og síðari tímabila. Upplýsingar um mikilvægar ákvarðanir stjórnenda þar sem matsaðferðir hafa marktæk áhrif á skráðar fjárhæðir í ársreikningnum er að finna nánar í skýringu 10. Félagið notar viðeigandi verðmatslíkan fyrir hverja fjárfestingu eða viðskiptaverð í lok reikningsskilatímabils ef viðeigandi.

5. Hreinn hagnaður af verðbréfum

	2025	2024
Gangvirðisbreyting og arðstekjur	7.245.278	4.396.308

Fyrir frekari upplýsingar um gangvirði fjáreigna, sjá skýringu 10.

6. Vaxtatekjur

	2025	2024
Vaxtatekjur af bankainnstæðum	302.224	244.967
Vaxtatekjur af kröfum og skuldabréfaeignum	18.998	20.588
Vaxtatekjur samtals	<u>321.222</u>	<u>265.555</u>

Vaxtatekjur af lánskröfum og skuldabréfaeignum eru færðar miðað við aðferð virkra vaxta.

7. Rekstrarkostnaður

	2025	2024
Laun starfsmanna	360.635	227.031
Stjórnarlaun	25.800	24.000
Mótframlag í lífeyrissjóði	42.857	25.333
Önnur launatengd gjöld	28.927	23.124
Samtals laun og launatengd gjöld	<u>458.219</u>	<u>299.487</u>
Annar rekstrarkostnaður	277.110	187.092
Rekstrarkostnaður samtals	<u>735.330</u>	<u>486.579</u>

Skýringar

8. Tekjuskattur

Tekjuskattur er reiknaður í samræmi við lög um tekjuskatt og nemur gjaldfærð fjárhæð í rekstrarreikningi 0 kr. (2024: 0 kr.). Ekki kemur til greiðslu tekjuskatts á árinu 2026 þar sem tekjuskattsstofn félagsins er neikvæður (2025: 0).

Virkur tekjuskattur greinist þannig:

	2025		2024	
	Fjárhæð	%	Fjárhæð	%
Hagnaður ársins	6.830.186		4.149.579	
Skatthlutfall	1.366.037	20,0%	871.412	21,0%
Óskattskyldar tekjur	(1.409.486)	(20,6%)	(996.765)	(24,0%)
Ófrádráttarbær kostnaður	4	0,0%	1.632	0,0%
Tekjuskattseign, breyting	9.762	0,1%	90.798	2,2%
Niðurfellt yfirfæranlegt tap	21.220	0,3%	0	0,0%
Aðrar breytingar	12.462	0,2%	32.924	0,8%
Tekjuskattur skv. rekstrarreikning	0	0,0%	0	0,0%

Tekjuskattseign er einungis færð að því marki sem líklegt er talið að skattskyldur hagnaður verði til ráðstöfunar í framtíðinni, sem unnt verður að nýta eignina á móti. Tekjur félagsins samanstanda að mestu leyti af hagnaði af gangvirðisbreytingu hlutabréfa og arðstekjum, sem eru óskattskyldar tekjur skv. lögum um tekjuskatt. Því er ekki talið líklegt að nægjanlegur skattskyldur hagnaður verði til á næstu árum til að nýta ónotað yfirfæranlegt tap. Þar sem ólíklegt er talið að skattskyldur hagnaður verði á rekstri félagsins hefur tekjuskattseignin ekki verið færð, en hún var 2.803 milljónir króna í árslok 2025. Áætlað yfirfæranlegt skattalegt tap félagsins nam 14.014 milljónum króna í árslok 2025.

Yfirfæranlegt skattalegt tap nýtist til frádráttar skattalegum hagnaði í síðasta lagi sem hér segir:

Frá hagnaði ársins 2027	62.906
Frá hagnaði ársins 2029	13.411.862
Frá hagnaði ársins 2033	192.561
Frá hagnaði ársins 2034	180.473
Frá hagnaði ársins 2035	166.550
Samtals yfirfæranlegt tap	14.014.351

9. Fjármálagæringar

Fjáreignir og fjárskuldir flokkast þannig:

31. desember 2025

Fjáreignir	Á gangvirði gegnum rekstrarreikning	Á afskrifuðu kostnaðarverði	Samtals
Handbært fé og lausafjársgjöldir		4.233.943	4.233.943
Verðbréf á gangvirði gegnum rekstrarreikning	53.776.674		53.776.674
Lán og kröfur		255.890	255.890

Þrepaskipting gangvirðis

Gangvirði er skipt í þrjá flokka eftir því hvort aðferðirnar sem eru notaðar við ákvörðun gangvirðis byggja á markaðsgögnum eða ekki. Markaðsgögn endurspegla markaðsupplýsingar frá óháðum aðilum. Gangvirði sem byggir ekki á markaðsgögnum byggja á forsendum sem félagið gefur sér. Byggt á þessum tveimur tegundum breyta, er þrepaskipting gangvirðis ákvörðuð þannig:

- Þrep 1 - Uppgefið verð á virkum markaði. Hér er um að ræða skráð hlutabréf og skuldabréf í kauphöllum.
- Þrep 2 - Hér er verð byggt á gögnum, öðrum en uppgefnum verðum eins og í þrepi 1, sem þó eru aðgengileg á markaði, annað hvort beint eða óbeint. Gögn sem notuð eru við gangvirðisútreikninga hér geta verið t.d. þróun REIBOR vaxta og lánsþæfismat mótaðila.
- Þrep 3 - Hér fellur undir gangvirði eigna og skulda sem ekki byggir á markaðsgögnum. Hér er aðallega um að ræða hlutabréf og skuldabréf sem verðmetin eru út frá gögnum sem eru að verulegu leyti óaðgengileg á markaði.

Eftirfarandi töflur sýna þrepaskiptingu við ákvörðun gangvirðis þeirra fjáreigna sem færðar eru á gangvirði í reikningsskil félagsins. Félagið birtir ekki gangvirði annarra fjáreigna þar sem bókfært verð þeirra er talið endurspegla gangvirðið.

31. desember 2025	1. þrep	2. þrep	3. þrep	Samtals
Hlutabréf skráð á verðbréfamarkaði	25.601.435			25.601.435

Skýringar

10. Verðbréf á gangvirði gegnum rekstrarreikning (framhald)

Fjáreignir	Verðmatsaðferð	Mikilvægar óáþreifanlegar forsendur
Skráð á markað	Útgefið verð á virkum markaði	E/V
Óskráð verðbréf	Tekjuaðferð eða verð í síðustu viðskiptum bréfsins ef upplýsingar eru tiltækar og áreiðanlegar. Með tekjuaðferð var notuð núvirðis sjóðstreymisaðferð til að meta núvirði væntra framtíðarvirði sem hlýst af eignarhaldi á þessum bréfum.	Langtíma tekjuvöxtur, langtíma afkomu fyrir skatta, vegið meðalkostnaðarverð fjármagns.
Verðbréfasjóðir	Síðasta markaðsverð eða leiðrétt markaðsverð*	E/V
Skiptasamningar	Gangvirði skiptasamninga er breyting á undirliggjandi eign og nafnvirði, sem endurspeglar áunna áfallna vexti. Gangvirði gjaldmiðlaskiptasamninga endurspeglar mismun á samningsbundnu framvirks gengi og markaðsgengi á reikningsskiladegi.	E/V

*Ef síðasta markaðsverð er ekki talið endurspegla réttmæta virði á reikningsskiladegi, þá leiðréttir félagið verðið samkvæmt eigin mati og/eða upplýsingum frá sjóðsstjórum.

11. Eignarhlutur í dótturfélagi

Félagið á 100% eignarhlut í Stoðir UK Ltd., dótturfélag sem var stofnað á árinu 2025. Félagið er nýstofnað og er að hefja rekstur. Engar fjárfestingar hafa verið gerðar í dótturfélaginu til þessa. Ekki er saminn samstæðureikningur þar sem dótturfélagið er óverulegt.

12. Leigusamningar

Félagið er með leigusamning fyrir höfuðstöðvar sínar í Reykjavík. Leigusali er tengdur aðili og leigusamningurinn er ótímabundinn. Leigutímabilið hefur verið ákveðið 7 ár frá gildistöku (eða til desember 2029).

Leiguskuldir og leigueignir greinast þannig á árinu 2025 og 2024:

	2025		2024	
	Leiguskuldir	Leigueignir	Leiguskuldir	Leigueignir
Bókfært verð í ársbyrjun	(83.711)	80.271	(93.872)	91.916
Leigugreiðslur / afskriftir	15.597	(16.462)	14.275	(15.758)
Verðbætur	(3.647)	3.647	(4.113)	4.113
Bókfært verð í árslok	(71.760)	67.456	(83.711)	80.271

Vextir leiguskulda voru 3,5 milljónir króna á árinu (2024: 4,1 milljónir króna). Afskriftir leigueigna eru flokkaðar á meðal rekstrarkostnað í rekstrarreikningi og leigueignir eru flokkaðar á meðal rekstrarfjármuna í efnahagsreikningi. Heildar leigugreiðslur ársins voru 19,1 milljónir króna á árinu (2024: 18,4 milljónir króna).

Skýringar

13. Eigið fé

Hlutfé

Hlutfé félagsins í lok árs nam 12.500 milljónum samkvæmt samþykktum. Hver hlutur er 1 króna að nafnverði.

Á árinu 2025 keypti félagið eigin hluti að nafnvirði 62,5 milljónir króna. Kaupverð bréfanna nam 267,3 milljónum króna.

Félagið seldi eigin hluti að nafnvirði 80,4 milljónir króna í skiptum fyrir hlutabréf í Arctic Adventures að verði 343,8 milljónum króna.

Eigin bréf voru 33,8 milljónir króna að nafnvirði í árslok, sem jafngildir 0,27% af hlutfé félagsins. Heildarfjöldi útistandandi hluta við árslok voru 12.466,2 milljónir.

Yfirverðsreikningur

Fjárhæð sem hluthafar félagsins hafa greitt félaginu fyrir hluti umfram nafnverð hlutafjár er færð á yfirverðsreikning innborgaðs hlutafjár. Yfirverðsreikning innborgaðs hlutafjár má nota á móti tapi sem ekki verður greitt úr öðrum sjóðum eða á móti jöfnunarbréfum.

Annað bundið eigið fé

Lögbundinn varasjóður

Í samræmi við ákvæði laga um hlutafélög nr. 2/1995 er félaginu skylt að leggja minnst tíu prósent þess hagnaðar, sem ekki fer til þess að jafna hugsanlegt tap fyrri ára og ekki er lagt í aðra lögbundna sjóði, í lögbundinn varasjóð uns hann nemur tíu prósentum hlutafjárins. Þegar því marki hefur verið náð skulu framlög vera minnst fimm prósent þar til sjóðurinn nemur einum fjórða hluta hlutafjárins.

Gangvirðisreikningur

Í samræmi við ákvæði laga um ársreikninga nr. 3/2006 er matsbreyting hlutabréfa færð á bundinn reikning á meðal eigin fjár sem óheimilt er að úthluta arði af.

14. Stýring fjármálalegrar áhættu

Yfirlit

Stjórnendur fylgjast með og greina fjárhagslega áhættu í rekstri félagsins. Aðferðir við stjórnun fjárhagslegrar áhættu eru endurskoðaðar reglulega til að greina breytingar á markaði eða í rekstri félagsins. Eftirfarandi áhættur fylgja fjármálagerningum félagsins:

- lánsáhætta
- lausafjárahætta
- markaðsáhætta

Lánsáhætta

Lánsáhætta er hættan á fjárhagslegu tapi félagsins ef viðskiptamaður eða mótaðili í fjármálagerningi getur ekki staðið við umsamdar skuldbindingar sínar við félagið.

Bókfært virði fjáreigna endurspeglar hámarkslánsáhættu. Hámarkslánsáhætta á reikningsskiladegi var þannig:

	31.12.2025	31.12.2024
Handbært fé	4.233.943	3.004.908
Kröfur	130.589	266.358
Hámarkslánsáhætta í árslok	4.364.533	3.271.267

Skýringar

14. Stýring fjármálaþræðar áhættu (framhald)

Kröfur sem mældar eru á afskrifuðu kostnaðarverði eru taldar hafa lága lánsáhættu.

Félagið telur lánsáhættu sem stafar af handbæru fé, sem að mestu leyti samanstendur af bankainnstæðum hjá traustum fjármálastofnunum, takmarkaða. Engin virðisrýrnun hefur verið færð á þessum fjáreignum þar sem vænt mögulegt tap vegna lánsáhættu er óveruleg.

Lausafjárásáhættu

Lausafjárásáhættu er hættan á því að félagið geti ekki staðið við fjárhagsskuldbindingar sínar þegar þær falla á gjalddaga. Áhættan er talin óveruleg í lok árs 2025 og 2024 þar sem handbært fé og fjáreignir félagsins eru umfram fjárskuldir félagsins.

Markaðsáhættu

Markaðsáhættu er hættan á því að breytingar á markaðsverði, til dæmis vöxtum, erlendum gjaldmiðlum og gengi hlutabréfa hafi áhrif á afkomu félagsins eða virði fjárfestinga.

Verðmyndunaráhættu

Félagið býr við verðmyndunaráhættu, aðallega vegna fjárfestinga sinna sem eru færðar á gangvirði í gegnum rekstrarreikninginn, vegna óvissu um framtíðar viðskiptaverð þeirra fjárfestinga. Gangvirði fjármálagerna í erlendum gjaldmiðlum, sem einnig eru metinn á gangvirði í gegnum rekstur, geta einnig sveiflast vegna gengisbreytinga (sjá nánar um gjaldmiðlaáhættu hér að neðan).

Stefna félagsins er að draga úr verðmyndunaráhættu með dreifðu safni og velja hlutabréf og aðra fjármálagerna af kostgæfni. Sjá nánar skýringu 10 fyrir frekari upplýsingar um útsetningu félagsins fyrir fjárfestingum sem metnar eru á gangvirði í gegnum rekstrarreikning og mat á gangvirði.

Samsetning fjárfestinga sem metnar eru á gangvirði í gegnum rekstrarreikning í árslok greinast þannig:

	2025	2024
Hlutabréf skráð á verðbréfamarkaði	48%	54%
Óskráð verðbréf	52%	45%
Verðbréfasjóðir	0%	1%
	<u>100%</u>	<u>100%</u>

Vaxtaáhættu

Félagið býr við vaxtaáhættu vegna breytilegra vaxta á fjármálagerningum. Breyting vaxta um 100 punkta á reikningsskiladegi hefði hækkað (lækkað) afkomu fyrir skatt og þ.a.l. eigið fé um 42 milljónir króna (2024: 30 milljónum króna). Þessi greining byggir á því að allar aðrar breytur haldist óbreyttar.

Gjaldmiðlaáhættu

Félagið er með bankainnstæður í öðrum gjaldmiðlum en íslenskum krónum og hefur gert framvirka samninga um að kaupa erlenda gjaldmiðla á föstu gengi. Vegna þess er félagið vakandi fyrir þeirri áhættu að gengisbreytingar á íslensku krónunni gagnvart þessum erlendu gjaldmiðlum geti haft neikvæð áhrif á rekstur félagsins.

15. Tengdir aðilar

Skilgreining á tengdum aðilum

Tengdir aðilar eru þeir eigendur sem hafa yfirráð yfir félaginu, stjórnarmenn, forstjóri og fjármálastjóri. Einn hluthafi var með yfir 50% atkvæðisréttar í árslok 2025, en það er móðurfélag félagsins, S121 ehf. með 61,0% hlut.

Viðskipti við tengda aðila eru á sömu kjörum og ef um ótengda aðila væri að ræða.

Í árslok 2025 námu lán til lykilstarfsmanna 0 krónum (árslok 2024: 265 milljónum króna). Vaxtatekjur af lánum til lykilstarfsmanna árið 2025 námu 4,4 milljónum króna (2024: 27,5 milljónum króna). Lánin voru að fullu greidd á fyrri hluta ársins 2025.

Félagið er með leigusamninga við félag sem stjórnarmaður Stoða hf. hefur yfirráð yfir. Sjá nánari upplýsingar um leigusamninga í skýringu 12.

Laun greidd til forstjóra námu 100,0 milljónum króna (2024: 75,0 milljónir króna). Laun greidd til stjórnarmanna námu 25,8 milljónum króna á árinu 2025 (2024: 24 milljónir króna).

16. Reikningsskilaaðferðir

Hreinn hagnaður af fjárfestingum í verðbréfum

Hreinn hagnaður af fjárfestingum í verðbréfum samanstendur af hagnaði eða tapi af sölu hlutabréfa, gangvirðisbreytingum fjárfestinga sem færðar eru á gagnvirði gegnum rekstrarreikning og arðstekjum. Arður af hlutabréfaeignum eru færðar í rekstrarreikning á þeim degi sem arðsúthlutun er samþykkt.

Vaxtatekjur

Vaxtatekjur samanstanda af vaxtatekjum af bankainnstæðum, lánskröfum og skuldabréfaeignum og eru færðar í rekstrarreikning eftir því sem þær falla til miðað við virka vexti.

Vaxtagjöld

Vaxtagjöld samanstanda aðallega af vaxtakostnaði af leiguskuldum og eru færðar í rekstrarreikning eftir því sem þær falla til miðað við virka vexti.

Skýringar

16. Reikningsskilaaðferðir (framhald)

Erlendir gjaldmiðlar

Viðskipti í erlendum gjaldmiðlum eru færð á gildandi gengi þess dags sem viðskiptin fara fram. Peningalegar eignir og skuldir í erlendum gjaldmiðlum eru færðar miðað við gengi í lok reikningsskiladags. Gengismunur sem myndast af eignum og skuldum sem eru metnar á gangvirði í erlendri mynt eru færðar í rekstrarreikning undir „Hreinn hagnaður af verðbréfum“. Gengismunur sem myndast vegna eigna og skulda sem eru ekki metin á gangvirði gegnum rekstur eru færð sem „Hreinn gengismunur“.

Fjáreignir

Flokkun

Félagið skráir verðbréf sín þegar félagið gerist aðili að samningsbundnum ákvæðum viðkomandi verðbréfa. Safni verðbréfa er stýrt og afkoma metin á gangvirðisgrunni. Félagið einbeitt sér fyrst og fremst að gangvirðisupplýsingum og notar þær upplýsingar til að meta afkomu eignanna og taka ákvarðanir.

Verðbréf félagsins, flokkaðar í efnahagsreikningi sem „Verðbréf“, eru færð á gangvirði gegnum rekstrarreikning þar sem félagið hefur ekki tekið þá stefnu að færa verðbréfin á gangvirði gegnum aðra heildarafkomu.

Afleiðusamningar eru færðir á gangvirði gegnum rekstrarreikning. Afleiðusamningar með jákvæða stöðu eru flokkaðir á meðal eigna í efnahagsreikningi sem „Verðbréf“.

Fjáreignir sem færðar eru á afskrifuðu kostnaðarverði eru skuldabréf sem áætlað er að eiga til gjalddaga og samningsbundnar greiðslur á settum gjalddögum samanstanda einungis af afborgunum af höfuðstól og vöxtum. Félagið færir lánskröfur og skuldabréf á afskrifuðu kostnaðarverði.

Skráning, afskráning og mat

Fjáreignir eru skráðar þegar félagið verður aðili að samningsbundnum skilmálum gerningsins. Fjáreignir eru færðar á gangvirði við upphaflega skráningu. Viðskiptakostnaður sem tengist beint kaupum eða útgáfu fjáreigna (annarra en fjáreigna á gangvirði gegnum rekstrarreikning) er bætt við eða dreginn frá gangvirði fjáreignanna, eftir því sem við á, við upphaflega skráningu. Viðskiptakostnaður sem tengist beint kaupum á fjáreignum á gangvirði gegnum rekstrarreikning er gjaldfærður strax við kaupin.

Fjáreignir eru afskráðar þegar samningsbundinn réttur til framtíðarsjóðstreymis af fjáreigninni er ekki lengur til staðar eða þegar áhætta og ávinningur af fjáreigninni flyst yfir á annan aðila.

Eftir upphaflega skráningu eru allar fjáreignir metnar á gangvirði gegnum rekstrarreikning. Arðstekjur og gangvirðisbreytingar á verðbréfum á gangvirði gegnum rekstrarreikning eru flokkaðar á meðal „hagnaður af verðbréfum“ í rekstrarreikningi þegar þær falla til.

Vextir af skuldabréfaeignum eru færðir á afskrifuðu kostnaðarverði gegnum rekstrarreikning í samræmi við aðferð virkra vaxta.

Skýringar

16. Reikningsskilaaðferðir (framhald)

Fjáreignir færðar á afskrifuðu kostnaðarverði

Lánskröfur félagsins og skuldabréfaeignir, aðrar kröfur (að undanskildum fyrirframgreiðslum) og handbært fé falla undir virðisrýrnunarlíkan væntanlegs útlánataps samkvæmt IFRS 9. Lánskröfur og skuldabréfaeignir, skráð á afskrifuðu kostnaðarverði, eru frá tengdum aðila félagsins. Við mat á væntu útlánatapi þessarar eignar beitir félagið einstaklingsbundna nálgun. Félagið metur lánsáhætta á öðrum kröfum óverulega og handbært fé, sem aðallega samanstanda af bankainnstæðum, takmörkuð.

Fjárskuldir

Flokkun

Fjárskuldir eru færðar á afskrifuðu kostnaðarverði eða gangverði gegnum rekstrarreikning. Afleiðusamningar eru færðir á gangverði í gegnum rekstrarreikning. Afleiðusamningar með neikvætt virði eru færðir sem skuld í efnahagsreikningi. Aðrar fjárskuldir eru færðar á afskrifuðu kostnaðarverði.

Skráning, afskráning og mat

Fjárskuldir eru upphaflega færðar í bókhaldi félagsins þegar félagið verður samningsbundinn aðili að fjármálagerningnum. Fjárskuldir eru færðar á gangvirði við upphaflega skráningu. Allur beinn viðskiptakostnaður fjárskulda er dregin frá gangvirði þeirra þegar viðeigandi við upphaflega skráningu.

Gangvirðisbreyting fjárskulda sem færðar eru á gangvirði gegnum rekstrarreikning (sem dæmi neikvæð staða afleiðusamninga) eru færðar í rekstrarreikning þegar þær falla til.

Jöfnun fjáreigna og fjárskulda

Fjáreignum og fjárskuldum er jafnað saman og hrein fjárhæð sett fram í efnahagsreikning þegar til staðar er lagalegur réttur til jöfnunar og ætlunin er að gera upp eign og skuld miðað við hreina fjárhæð eða að gera upp eign og skuld á sama tíma. Lagalegur réttur má ekki vera háður framtíðar atburðum og verður að vera framkvæmanlegur í eðlilegum rekstri og í tilfellum vanskils, gjaldþrots eða greiðslufalls félagsins eða samningsaðila.

Eignarhlutir í dótturfélögum

Eignarhlutir í dótturfélögum eru færðar á kostnaðarverði á upphaflegu kaupverði. Bókfært virði er síðar færð skv. hlutdeildaraðferð. Eignarhluturinn samanstendur af kaupverði og öllum beinum kostnaði sem tengist eignarhlutnum.

Hlutdeild í afkomu dótturfélags er færð í rekstrarreikning og flokkað undir liðnum „Rekstrarkostnaður“ Fenginn arður frá dótturfélagi er dregin frá bókfært virði eignarhlutar.

Eignarhlutur í dótturfélögum er metið með tilliti til virðisrýrnunar. Virðisrýrnun er færð í rekstrarreikning.

Rekstrarfjármunir

Rekstrarfjármunir félagsins eru færðir til eignar á kostnaðarverði eða endurmetnu kostnaðarverði að frádregnum uppsöfnuðum afskriftum og virðisrýrnun. Kostnaðarverð varanlegra rekstrarfjármuna samanstendur af kaupverði og öllum beinum kostnaði við að koma eigninni í tekjuhæft ástand. Afskriftir eru reiknaðar línulega miðað við áætlaðan nýtingartíma einstakra hluta rekstrarfjármuna. Afskriftir eru færðar í rekstrarreikning undir liðnum „Rekstrarkostnaður“.

Skýringar

16. Reikningsskilaaðferðir (framhald)

Leigusamningar

Við upphaflega skráningu metur félagið hvort samningur teljist vera leigusamningur eða innihaldi leigusamning. Félagið skráir nýtingarrétt til eignar og samsvarandi leiguskuldbindingu vegna allra leigusamninga, nema skammtímaleigu (til skemmri tíma en 12 mánaða) og fyrir leigueignir með lágt virði.

Leiguskuldir eru upphaflega metin á núvirði framtíðarleigugreiðslna. Leigugreiðslur eru núvirtar með innbyggðum vöxtum í samningi, eða ef þeir eru ekki aðgengilegir, með vöxtum af viðbótarlánsfé. Leigugreiðslur skiptast í vaxtagjöld og greiðslur af höfuðstól sem koma til lækkunar á leiguskuldbindingu.

Leigueignir eru afskrifaðar á því sem styttra reynist af líftíma leigusamnings eða leigueignar. Nýtingarréttur vegna leigueignar er afskrifaður frá upphafsdegi leigusamnings

Tekjuskattur

Tekjuskattur felur í sér tekjuskatt til greiðslu og frestaðan tekjuskatt.

Tekjuskattur til greiðslu byggist á skattskyldum hagnaði ársins. Skattskyldur hagnaður er frábrugðinn hagnaði eins og hann kemur fram í rekstrarreikning þar sem sumar tekjur og gjöld eru ófrádráttabærar eða frádráttabærar á öðrum tímabilum. Tekjuskattur til greiðslu byggir á þeirri samþykktu skattprósentu sem er fyrir lok reikningsskilatímabils.

Frestaður tekjuskattur er færður vegna tímabundinna mismuna á bókfærðu verði eigna og skulda í ársreikningi annars vegar og skattverði þeirra hins vegar. Útreikningur á frestuðum skatti byggir á því skatthlutfalli sem vænst er að verði í gildi þegar tímabundnir mismunir koma til með að snúast við, miðað við gildandi lög á uppgjörssdegi.

Stjórnarháttayfirlýsing

Félagið fylgir leiðbeiningum um stjórnarhætti sem gefnar eru út af Viðskiptaráði Íslands, NASDAQ OMX Iceland hf. og Samtökum atvinnulífsins. Félagið fylgir ekki í öllum tilvikum leiðbeiningunum og er skýrt frá frávikum frá þeim hér á eftir.

Innra eftirlit og áhættustýring

Hjá félaginu störfuðu átta starfsmenn og tekur innra eftirlit og áhættustýring mið af þeim fjölda. Stórum hluta starfseminnar er útvistað, þar á meðal bókhaldi og launavinnslu. Þannig er reynt að tryggja að aðgreining starfa sé eins mikil og unnt er miðað við starfsmannafjölda. Aðgreining starfa er mikilvægur eftirlitsþáttur samkvæmt skilgreiningu á innra eftirliti. Stjórn félagsins skal tryggja að nægjanlegt eftirlit sé með meðferð fjármuna og að góð regla sé á bókhaldi og uppgjörum. Stjórnendaeftirlit er virkt en stjórn félagsins fundar reglulega um málefni þess. Miðlun upplýsinga er auðveld og skilvirk vegna fámennis.

Áhættustýring er óformleg hjá félaginu sem hefur ekki sett sér áhættustefnu. Félagið hefur á síðastliðnum árum aðallega fjárfest í hlutabréfum, bæði skráðra og óskráðra félaga á innlendum verðbréfamarkaði. Stjórnin fær upplýsingar um þróun eignasafns félagsins á reglulegum stjórnarfundum. Stjórnin hyggst ekki setja áhættustefnu fyrir félagið í ljósi þess að fjárhagslegur styrkur þess er verulegur og á því hvíla engar vaxtaberandi skuldir.

Tilnefninganefnd og undirnefndir stjórnar

Hjá félaginu eru engar undirnefndir stjórnar og ekki heldur tilnefningarnefnd. Stjórnin hyggst hvorki stofna tilnefningarnefnd né undirnefndir stjórnar.

Stjórn

Á árinu 2025 voru haldnir 20 stjórnarfundir og voru allir stjórnarmenn viðstaddir alla fundi ársins.

Stjórnin hefur sett sér starfsreglur sem ekki eru birtar opinberlega. Stjórn hefur ekki framkvæmt formlegt árangursmat árlega.

Stjórnin hefur ekki sett stefnu um fjölbreytileika í tengslum við meðlimi sína.

Stjórnin leggur starfskjarastefnu fyrir hluthafa árlega, á aðalfundi.

Stjórnarmenn

Sigurjón Pálsson, fæddur árið 1972, er stjórnarformaður Stoða og hefur setið í stjórn félagsins frá árinu 2009, með eins árs hléi á árunum 2016 til 2017. Hann gegndi stjórnarformennsku á árunum 2014 til 2016 og hefur aftur verið stjórnarformaður frá 17. apríl 2021. Sigurjón er með verkfræðipróf frá Háskóla Íslands, meistaragráðu í stjórnun frá KTH og meistaragráðu í vörustjórnun frá MIT. Hann er löggiltur verðbréfamiðlari. Sigurjón starfaði sem framkvæmdastjóri rekstrarsviðs Arion banka á árunum 2011 til 2017. Hann er einn af stofnendum PayAnalytics, þar sem hann gegndi starfi forstjóra frá árinu 2017 þar til félagið var keypt af beqom árið 2023. Frá árinu 2023 hefur hann gegnt stöðu framkvæmdastjóra samstarfssviðs (Chief Alliances Officer) hjá beqom.

Sigurjón á óbeinan eignarhlut í Stoðum í gegnum félag sitt Þanka ehf. sem á 0,2% hlut í Stoðum. Sigurjón er óháður stjórnarmaður.

Ari Fenger, fæddur árið 1980, hefur setið í stjórn Stoða frá árinu 2022. Frá árinu 2006 hefur Ari verið forstjóri Nathan hf. Hann gegndi formennsku í Viðskiptaráði Íslands og háskólaráði Háskólans í Reykjavík á árunum 2020–2024. Þá situr hann í stjórn Amerísk-íslenska viðskiptaráðsins.

Ari fer með óbeinan eignarhlut í Stoðum í gegnum eignarhlut í Helgafelli ehf., sem á hlut í S121 ehf. S121 ehf. fer með 61,0% eignarhlut í Stoðum og telst Ari því háður stjórnarmaður.

Stjórnarháttayfirlýsing

Stjórnarmenn (framhald)

Magnús Ármann, fæddur árið 1974, hefur setið í stjórn Stoða frá árinu 2022. Magnús hefur gegnt stjórnarstörfum hjá fjölmörgum skráðum og óskráðum félögum á Íslandi og erlendis. Hann situr nú í stjórnnum GGH ehf., Admiral Reykjavík ehf., Súlur Reykjavík ehf., Bjartavík ehf., Ketilsker ehf., Von Harðfiskverkun ehf. og S121 ehf.

Magnús á óbeinan eignarhlut í Stoðum í gegnum félagið sitt GGH ehf., sem á 0,003% hlut í Stoðum hf. Magnús á óbeinan eignarhlut í Stoðum í gegnum félag sitt GGH ehf., sem á hluti í félögunum M&M Capital ehf., sem á 3,53% hlut í Stoðum hf. og S121 ehf., sem á 61,0% hlut í Stoðum hf. Magnús telst því háður stjórnarmaður.

Forstjóri

Jón Sigurðsson, fæddur árið 1978, hefur verið forstjóri Stoða frá apríl 2021. Jón er með B.Sc.gráðu í viðskiptafræði frá Háskólanum í Reykjavík. Frá árinu 2005 til 2007 starfaði hann sem framkvæmdastjóri hjá Stoðum og frá 2007 til 2010 gegndi hann starfi forstjóra félagsins. Jón hefur verið framkvæmdastjóri Helgafells ehf. frá árinu 2013, stjórnarformaður S121 ehf. frá árinu 2017 og stjórnarformaður Símans hf. frá árinu 2019. Hann situr einnig í stjórn Bláa lónsins hf. Jón hefur átt sæti í stjórnnum fjölmargra skráðra og óskráðra félaga hérlandis og erlendis, þar á meðal Refresco Group B.V. á árunum 2006 til 2018 og N1 hf. (nú Festi hf.) á árunum 2014 til 2018.

Jón fer með óbeinan eignarhlut í Stoðum í gegnum eignarhluti sína í Helgafelli ehf. og Straumnesi ráðgjöf ehf., sem bæði eiga hlut í S121 ehf., en félagið fer með 61,0% eignarhlut í Stoðum. Að auki fer Straumnes ráðgjöf ehf. með beinan 0,01% eignarhlut í Stoðum.

Forstjóri ber ábyrgð á daglegum rekstri félagsins í samræmi við samþykktir þess, stefnu og ákvarðanir stjórnar. Forstjóri annast stefnumótun og framþróun félagsins ásamt skipulagningu og eftirfylgni daglegs rekstrar. Þá ber forstjóri ábyrgð á því að starfsemi félagsins sé á hverjum tíma í samræmi við gildandi lög og reglur.

Samskipti hluthafa og stjórnar

Samskipti milli hluthafa og félagsins eiga sér stað á aðalfundi, sem að öllu jöfnu er haldinn að vori, og á upplýsingafundi sem að öllu jöfnu er haldinn að hausti. Á síðustu árum hafa öllum hluthöfum jafnframt verið sendar upplýsingar með tölvupósti um rekstur og efnahag félagsins á þriggja mánaða fresti.

Brot á lögum og reglum

Hvorki dómstólar né eftirlits- eða úrskurðaraðilar hafa á árinu fellt dóma eða úrskurði um að félagið hafi brotið gegn lögum eða reglum í starfsemi sinni né er kunnugt um slík brot.

Independent Auditor's report on the effects of implementing IFRS

To the shareholders and the board of directors of Stoðir hf.

Opinion

We have audited the effects of the implementation of International Financial Reporting Standards (IFRS) as adopted by the EU of Stoðir hf. (the Company) as presented in note 4 to the IFRS Financial Statements for the year 2024.

In our opinion, the effects of implementing IFRS presented in note 4 to the financial statements, in all material respects represents the effects of implementing International Financial Reporting Standards (IFRSs) as adopted by the European Union and additional requirements in the Icelandic financial statement act no. 3/2006.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Iceland, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Basis of Presentation

We draw attention to note 4 to the Financial Statements, which describes the effects of implementing IFRS. The IFRS Financial Statements have been prepared in connection with planned listing of the Company shares on Nasdaq OMX, including the prospectus prepared in connection therewith. Our opinion is not modified in respect of this matter.

Responsibilities of the Board of Directors and the CEO for the Financial Statements

The Board of Directors and the CEO are responsible for the preparation and fair presentation of the Financial Statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, and for such internal control as the Board of Directors and the CEO determines is necessary to enable the preparation of the Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors and the CEO are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors and the CEO either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the effects of implementing IFRS

Our objectives are to obtain reasonable assurance about whether the effects of implementing IFRS is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Statements.

Independent Auditor's report on the effects of implementing IFRS

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the effects of implementing IFRS, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related notes made by management.
- Evaluate the overall presentation, structure, and whether the content and the effects of implementing IFRS represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kopavogur, 5 August 2025

Deloitte ehf.

Ingví Björn Bergmann
State Authorized Public Accountant

Endorsement by the board of directors and CEO

The financial statements comprise the financial statements of Stodir hf. (Stodir or the Company). Stodir hf. is an Icelandic investment company that creates long term value through active ownership.

These financial statements for the year ended 31 December 2024, which are the first the Company has prepared in accordance with International Financial Reporting Standards (IFRS), are a restatement from the previously published financial statements for the purpose of financial information included in the prospectus for the Company's registration to the Nasdaq main market. The previously published financial statements for the year 2024 prepared in accordance with the Icelandic financial statements act no. 3/2006 were approved by the board of directors on 13 February 2025.

According to the income statement, profit for the year 2024 amounted to ISK 4,150 million (2023: 2,597 million). According to the statement of financial position, equity at 31 December 2024 amounted to ISK 52,155 million (2023: 49,093 million).

During the year 2024 the Company acquired own shares in nominal amount of ISK 22.9 million for ISK 87.5 million. At year end the Company owned 0.4% of its share capital. Total number of outstanding shares at 2024 year-end was ISK 12,448 million.

During the year 2024 the average number of employees was 4.3 (2023: 4.5).

Total number of shareholders at year end were 106 compared to 107 at the beginning of the year. The 10 largest shareholders at year end, excluding own shares, were as follows:

Shareholders	Share
S121 ehf.....	61.04%
Motas hf.....	5.76%
M&M capital ehf.....	3.54%
Vindhamar ehf.....	2.98%
Stefnir - IS 5 hs.....	2.93%
Islandsbanki hf.....	2.12%
Hofgardar ehf.....	1.72%
Nataaqlaq Fisheries Inc.....	1.49%
Arcus Invest ehf.....	1.43%
Fari ehf.....	1.27%
Others.....	15.72%
Total.....	100.00%

The board of directors proposed that a dividend of ISK 1,000 million would be paid to shareholders for the financial year 2024 which was approved by shareholders on the annual general meeting on 8 April 2025. Reference is made to the financial statements for further information on allocation of profit and other changes in equity.

Non-financial information

Stodir is an investment company, with the main goal of creating long-term value with active ownership. Stodir's key assets are shareholdings in Arion bank hf., First Water hf., Kvika bank hf., Siminn hf., Blue Lagoon hf., and Arctic Adventures hf. Other assets are mostly unlisted shares and cash. Reference is made to note 14 for financial risk management.

Stodir does not have a sustainability policy and does not publish sustainability related information (environmental, social, or governance related).

Stodir will work towards implementing sustainable thinking, and formalise as appropriate, in decision making and in their active ownership role.

Corporate governance statement is an appendix to the financial statements.

Endorsement by the board of directors and CEO

Statement by the board of directors and the CEO

The annual financial statements for the year ending 31 December 2024 have been prepared in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union and additional requirements of the Icelandic financial statements act no. 3/2006.

According to our best knowledge, it is our opinion that the annual financial statements give a true and fair view of the financial performance of the Company for the year 2024, its assets, liabilities and financial position as at 31 December 2024.

Further, in our opinion, the financial statements and the endorsement by the board of directors and CEO give a fair view of the development and performance of the Company's operations and its financial position and fairly describes the principal risks and uncertainties faced by the Company, as outlined in notes to the financial statements.

The board of directors and CEO have today discussed the financial statements of Stodir hf. for the year 2024 and confirm them by means of their signatures.

Reykjavik, 5 August 2025

Notes

1. General information

Stodir hf. (the Company) is a private limited company and complies with the Icelandic limited companies law no. 2/1995.

Stodir hf. is an investment company whose purpose is to invest in assets for the benefit of its shareholders. The Company is domiciled in Iceland and its legal residence is Sudurgata 12, 101 Reykjavik.

2. Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and additional requirements from the Icelandic financial statements act no. 3/2006 (IS GAAP). For all periods up to and including the year ended 31 December 2024, the Company has prepared its financial statements in accordance with IS GAAP. These financial statements for the year ended 31 December 2024, which are the first the Company has prepared in accordance with IFRS, are a restatement from the previously published IS GAAP 2024 financial statements for the purpose of financial information included in the prospectus for the Company's registration to the Nasdaq main market. The previously published IS GAAP financial statements for the year 2024 were approved by the board of directors on 13 February 2025 and audited by KPMG with an unmodified opinion. Refer to note 4 for information on how the Company adopted IFRS.

The financial statements have been prepared on historical cost basis, except for investments in shares, investments in mutual funds and derivative instruments which have been measured at fair value. For more details see note 16 for accounting policies. The financial statements are presented in Icelandic krona (ISK) which is the Company's functional currency. All amounts are in thousands of ISK, unless otherwise stated.

In order to enhance the informational value of the financial statements, information is disclosed in the notes to the financial statements based on how relevant and important it is. Therefore, information that is neither considered to be important nor relevant for the users of the financial statements is not disclosed.

The financial statements were approved by the board of directors of Stodir on 5 August 2025.

3. Critical accounting estimates and assumptions

In applying the Company's accounting policies, which are described in note 16, the directors are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets relate to fair value measurement of unlisted shares. The Company utilises the most appropriate valuation model for each individual case, or last price if relevant. Refer to note 11 for further information.

4. Adoption of International Financial Reporting Standards (IFRS)

The Company has prepared financial statements that comply with IFRS applicable as at 31 December 2024, together with the comparative period data for the year ended 31 December 2023, as described in the summary of significant accounting policies. In preparing the financial statements, the Company's opening statement of financial position was prepared as at 1 January 2023, the Company's date of transition to IFRS. This note explains the principal adjustments made by the Company in restating its previously reported IS GAAP financial statements, including the statements of financial position as at 1 January 2023 and the financial statements as of, and for, the years ended 31 December 2023 and 31 December 2024.

Notes

4. Adoption of International Financial Reporting Standards (IFRS) (continued)

Statement of financial position at 1 January 2023

	As previously reported	Adjustments	According to IFRS
Operating assets.....	5,086	100,429	105,515
Total assets.....	46,231,309	100,429	46,331,738
Lease liabilities.....	0	100,429	100,429
Total liabilities.....	6,287	100,429	106,717

Statement of financial position at 31 December 2023

	As previously reported	Adjustments	According to IFRS
Operating assets.....	11,672	91,916	103,588
Total assets.....	49,109,414	91,916	49,201,330
Lease liabilities.....	0	93,872	93,872
Total liabilities.....	14,346	93,872	108,218

Statement of financial position at 31 December 2024

	As previously reported	Adjustments	According to IFRS
Operating assets.....	6,313	80,270	86,583
Total assets.....	52,232,614	80,270	52,312,884
Lease liabilities.....	0	83,711	83,711
Total liabilities.....	73,982	83,711	157,693

Statement of profit or loss and other comprehensive income for the year 2023

	As previously reported	Adjustments	According to IFRS
Operating expenses	-427,974	2,497	-425,476
Operating profit	2,599,160	2,497	2,601,657
Interest expense	-301	-4,454	-4,755
Profit and comprehensive income for the year	2,598,859	-1,956	2,596,903

Notes

4. Adoption of International Financial Reporting Standards (IFRS) (continued)

Statement of profit or loss and other comprehensive income for the year 2024

	As previously reported	Adjustments	According to IFRS
Operating expenses	-485,095	2,585	-482,509
Operating profit	4,151,064	2,585	4,153,649
Interest expense	0	-4,070	-4,070
Profit and comprehensive income for the year	4,151,064	-1,484	4,149,579

Adjustments are due to differences in lease accounting between IS GAAP and IFRS. At the date of implementation, the Company recognises a lease liability amounting to ISK 100.4 million, along with a corresponding right-of-use asset. Interest expense from the lease liability, amounting to ISK 4.1 million for the year 2024 (2023: ISK 4.5 million), is recognised under the line item *Interest expense in the statement of profit or loss*. Depreciation of the right-of-use asset, amounting to ISK 15.6 million for the year 2024 (2023: ISK 14.8 million), is recognised within the line item *Operating expenses* in the statement of profit and loss.

Under IS GAAP, the Company recognised operating lease expense amounting to ISK 18.3 million for the year 2024 (2023: ISK 17.3 million) within the line item *Operating expenses* in the statement of profit or loss, on a straight-line basis over the term of the lease. This was reversed in IFRS adjustments for operating expenses. As a result, the application of IFRS 16 led to an increase in Operating profit amounting to ISK 2.6 million for the year 2024 (2023: ISK 2.5 million) and a decrease in *Profit and comprehensive income* for the year 2024 amounting to ISK 1.5 million (2023: ISK 2.0 million), compared to the previously reported IS GAAP financial statements.

Statement of cash flows for the years 2024 and 2023

Changes were made to the presentation in the statement of cash flows. Cash flows from investments are classified as operating activities instead of investing, as presented in prior financial statements under IS GAAP. According to guidance from *IAS 7 Cash Flows*, this classification better aligns with the nature of the Company's operations, whose primary business is making, managing, and selling investments. It is also consistent with the presentation in the statement of profit or loss and other comprehensive income.

Cash flows from interest and dividends received are presented separately, as required by IAS 7, and classified as operating activities.

Cash flows from paid interest are mainly from lease liabilities and included in the line item *Payment of lease liabilities* in financing activities. As they are of immaterial amounts, they are not presented separately.

5. Net income from investment securities

	2024	2023
Changes in fair value and dividend income	4,396,308	2,594,287
	<u>4,396,308</u>	<u>2,594,287</u>

For information regarding fair value measurement of financial assets, refer to note 11.

6. Interest income

	2024	2023
Interest income from bank deposits	244,967	457,096
Interest income from loans and bond assets	20,588	1,157
	<u>265,555</u>	<u>458,253</u>

Interest income from loans and bond assets is recognised in accordance with the effective interest rate method.

Notes

7. Operating expenses

	2024	2023
Employee salaries and benefits	227,031	207,768
Board of Directors' fees	24,000	23,600
Pension fund contributions	25,333	27,874
Other salary-related expenses	23,124	18,323
Total salaries and related expenses	299,487	277,566
Other operating expenses	183,022	147,911
Total operating expenses	482,509	425,476

8. Auditor's fees

	2024	2023
Audit of financial statements and review of interim financial statements	5,165	4,614
Other services	13,760	23,031
	18,925	27,644

9. Income tax

Income tax has been calculated in accordance with Icelandic tax laws. The amount charged to the income statement is ISK 0 (zero) (2023: 0). No income tax will be paid in the year 2025 (2024: 0) as a result of taxable losses.

Active income tax is analysed as follows:	2024		2023	
	Amount	%	Amount	%
Profit before taxes	4,149,579		2,596,903	
Tax rate	871,412	21.0%	519,381	20.0%
Tax exempt revenues	(996,765)	(24.0%)	(542,224)	-20.9%
Non-deductible expenses	1,632	0.0%	2,712	0.1%
Change in estimate of recognised tax assets	90,798	2.2%	(1,665,632)	-64.1%
Expired carry forward tax losses	0	0.0%	1,685,763	64.9%
Other items	32,924	0.8%	0	0.0%
Income tax according to income statement	0	0.0%	0	0.0%

A deferred tax asset is only recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. The majority of the Company's income is from fair value changes of investments and dividend income. These revenues are exempt from taxation in accordance with tax law. As result the Company has not recognised carry-forward tax losses in its statement of financial position amounting to ISK 2,784 million at 2024 year-end as realization of tax benefits is improbable. Tax loss carry forwards for the Company is estimated to be ISK 13,897 million at year-end 2024.

The Company's carry-forward tax losses can be utilised against taxable profits as follows:

Can be utilised until 2025	48,812
Can be utilised until 2028	62,906
Can be utilised until 2030	13,411,862
Can be utilised until 2034	192,561
Can be utilised until 2035	180,473
	13,896,613

Notes

Total unlisted shares			20,786,528

Fair value hierarchy

Fair value is divided into three categories depending on whether the methods used to determine fair value are based on market data or not. Market data reflects market information from independent sources. Fair values that are not based on market data are based on assumptions made by the Company. Based on these two types of variables, fair value tiering is determined as follows:

- Level 1 - quoted prices in active markets for identical assets or liabilities.
- Level 2 - valuation techniques for which all significant inputs are market observable, either directly or indirectly, for example Reibor interest rate curve or counterparty credit rating.
- Level 3 - valuation techniques which include significant inputs that are not based on observable market data. Here are mostly shares and bonds that are valued based on data that is unavailable on the market.

Notes

11. Investments at fair value through profit or loss (continued)

The following tables show the division of steps in determining the fair value of the financial assets that are entered at fair value in the Company's financial statements. The Company does not publish the fair value of other financial assets, as their book value is considered to reflect the fair value.

31 December 2024	Level 1	Level 2	Level 3	Total
Shares listed on stock exchange	26,563,621			26,563,621
Unlisted shares			21,983,526	21,983,526
Mutual funds		138,164	217,252	355,416

In the years 2024 and 2023, there were no transfers between levels of the fair value hierarchy.

Financial asset	Valuation technique	Significant unobservable inputs
Shares in listed companies	Quoted bid prices in an active market.	N/A
Unlisted shares	Income approach or price in recent transaction with shares in the company if information is available and reliable. Under the income approach the discounted cash flow method was used to capture the present value of the expected future economic benefits to be derived from the ownership of these investees.	Long-term revenue growth rates, long-term pre-tax operating margin, weighted average cost of capital.
Mutual funds	Last published share price or adjusted share price*	N/A
Swap & FX swap agreements	Fair value on swap agreements is the net change in the value of the underlying asset relative to the notional amount, reflecting accrued interest to date. Fair value of FX swap agreements reflects the difference between the contracted forward rate and the market forward rate at the reporting date.	N/A

*If the last published share price is not considered reflective of fair value at the reporting date the Company adjusts the share price according to its own estimate and/or information from fund managers.

Notes

12. Leases

The Company is party to a lease agreement for its head offices in Reykjavík. The lessor is a related party and the lease is for an indefinite duration. The lease period has been determined to be 7 years from the date of implementation (until December of 2029).

Lease liabilities and right-of-use assets are itemised as follows for the years 2024 and 2023:

	2024		2023	
	Lease liabilities	RoU-assets	Lease liabilities	RoU-assets
Balance at beginning of year	(93,872)	91,916	(100,429)	100,429
Payments / Depreciation	14,275	(15,758)	12,853	(14,809)
Indexation	(4,113)	4,113	(6,296)	6,296
Balance at year-end	(83,711)	80,271	(93,872)	91,916

Interest expense from lease liabilities amounted to ISK 4.1 million for the year (2023: ISK 4.5 million). Depreciation from right-of-use asset is presented with other operating expenses in the statement of profit or loss and other comprehensive income.

13. Equity

Share capital

Share capital at year end amounted to ISK 12,500 million according to the Articles of Association. Each share is in the nominal amount of 1 ISK.

During the year 2024 the Company acquired own shares in nominal amount of ISK 22.9 million for ISK 87.5 million. Treasury shares at year-end amounted to ISK 51.7 million which is 0.4 % of its share capital and therefore total number of outstanding shares at 2024 year-end were ISK 12,448 million.

Share premium

Share premium represents excess of payments above nominal value that shareholders have paid for shares sold by the Company less payments in excess of nominal value for shares purchased by the Company. Share premium of paid in share capital can legally be offset against accumulated deficit.

Other restricted equity

Statutory reserve

A statutory reserve is established in accordance with Act no. 2/1995 on limited liability companies stipulating that at least 10% of the Company's profit, not used to adjust previous years' losses or contributed to other reserves as required by law, shall be allocated to a reserve until its value reaches 10% of the Company's share capital. When that benchmark has been reached the contribution to the reserve shall be at least 5% until the reserve has reached 25% of the Company's share capital.

Unrealised fair value changes of investments

According to the Financial Statements Act 3/2006 the Company recognises unrealised fair value gains of financial assets measured at fair value through profit or loss as restricted reserve among equity, which is not available for distribution as dividends.

Notes

14. Financial risk management

Overview

Management monitors and analyses financial risks in the operations of the Company. Methods for financial risk management are reviewed on a regular basis to analyse any changes in the market or the Company's operations. The following risks have been identified for the Company's financial instruments:

- credit risk
- liquidity risk
- market risk

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31.12.2024	31.12.2023	1.1.2023
Cash and cash equivalents	3,004,908	4,192,961	8,017,128
Loans and bond assets	318,829	411,739	91,401
Other receivables	1,147	237	5,253
Maximum exposure to credit risk at year-end	3,324,885	4,604,937	8,113,782

Loans and bond assets, measured at amortised cost, are due from parties related to the entity and are considered to have low credit risk. Majority of the loans were repaid in first half of 2025. The Company measures expected credit losses on these assets on an individual basis. The Company considers that credit risk from other receivables of immaterial amounts and cash and cash equivalents, which consist mainly of bank balances with respective banks, is limited. The Company has not recognised any impairment with regards to these financial assets as the effects of any expected credit losses would be immaterial.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. Liquidity risk is considered minimal at 31 December 2024 and 2023 as the Company's cash and financial assets well exceed its financial liabilities.

Market risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and equity prices will affect the Company's income or the value of its holdings of financial instruments.

Price risk

The Company is exposed to price risk mainly from its investments measured at fair value through profit or loss due to uncertainty about future price development of the investments. When financial instruments measured at fair value are in foreign currencies, the price will also fluctuate due to changes in exchange rates (see under *Currency risk* below). The Company's policy is to manage price risk through diversification and selection of shares and other financial instruments. For information regarding the Company's exposure to investments at fair value through profit or loss and details on fair value measurement, refer to note 11.

The composition of investments at fair value through profit or loss at 31 December is as follows:

	2024	2023
Shares listed on stock exchange	54%	51%
Unlisted shares	45%	47%
Mutual funds	1%	1%
Forward contracts, net	0%	1%
	100%	100%

Notes

14. Financial risk management (continued)

Interest rate risk

The Company is exposed to interest rate risk through its variable interest rate bearing on demand bank balances. An increase in interest rates of 10 basis points at 31 December would positively affect the Company's pre-tax profit and equity in the amount of ISK 30 million (2023: ISK 42 million). A decrease in interest rates of 10 basis points would have negative affect on the Company's pre-tax profit and equity by the same amounts. This analysis assumes that all other variables remain constant.

Currency risk

The Company has bank account balances in foreign currencies (other than ISK) and forward contracts to sell foreign currencies at a fixed rate. Consequently, the Company is exposed to risk that the exchange rate of ISK relative to the foreign currency may change in a manner that has an adverse affect on the Company's operations.

31 December 2024

	EUR	USD	GBP	Other
Cash and cash equivalents	39,342	143,746	143,746	446
Investments	0	429,032	140,141	0
Net position	39,342	572,779	283,888	446

31 December 2023

	EUR	USD	GBP	Other
Cash and cash equivalents	535,444	1,443	139,463	72
Investments	155,769	340,500	0	0
Forward currency contracts	(2,257,500)	0	0	0
Net position	(1,566,287)	341,943	139,463	72

Sensitivity analysis

A 10% strengthening of the ISK against the following currencies at 31 December would have increased (decreased) pre-tax profit and equity by the amounts shown below. A 10% weakening of the ISK against these currencies would have had the equal but opposite effect on the amounts shown below. This analysis assumes that all other variable remain constant.

	2024	2023
EUR	(3,934)	156,629
USD	(57,278)	(34,194)
GBP	(28,389)	(13,946)
Other currencies	(45)	(7)

Notes

15. Related parties

Definition of related parties

The Company has a related party relationship with the controlling shareholder of the Company, its board of directors, CEO and COO. One shareholder held more than 50% of voting rights at year end 2024, the parent company, S121 ehf., which holds 61% of the shares in the Company.

Transactions with related parties are carried out at arm's length.

At 2024 year-end, loans receivable from key employees amounted to ISK 265 million (2023 year-end: ISK 303 million). Interest income from loans to key employees for the year 2024 amounted to ISK 27.5 million (2023: ISK 1.2 million). The loans were fully repaid in the first half of 2025.

The Company has a lease agreement with an entity that is controlled by a member of the board of directors. For further information regarding the lease, refer to note 12.

Salaries paid to the CEO amounted to ISK 75.0 million (2023: ISK 75.0 million). Salaries paid to the Board of Directors amounted to ISK 24.0 million in the year 2024 (ISK 23.6 million in 2023).

16. Significant accounting policies

Net income from investment securities

Net income from investment securities comprise gain or loss on the sale of shares, changes in the fair value of the investments recognised at fair value through profit or loss, and dividend income. Dividend income is recognised in profit or loss on the date the Company's right to receive dividend payments is established.

Interest income

Interest income is from bank balances and loans and bond assets recognised in profit or loss using the effective interest method.

Interest expense

Interest expense is mainly from lease liabilities and is recognised in profit or loss using the effective interest method.

Foreign currency

Foreign currency transactions are translated into ISK using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the statement of financial position date. Foreign exchange gains and losses relating to the financial assets carried at fair value through profit or loss are presented in the statement of comprehensive income within 'Net income from investment securities'. Foreign exchange gains and losses from other monetary assets and liabilities (not recognised at fair value through profit or loss) are presented in the statement of comprehensive income within 'Net foreign exchange difference'.

16. Significant accounting policies (continued)

Financial assets

Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

The Company's equity securities presented in the statement of financial position as 'Investments measured at fair value through profit or loss' are recognised at fair value through profit or loss as the Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income.

Derivative contracts are measured at fair value through profit or loss. Derivative contracts that have a positive fair value are presented as assets in the statement of financial position as 'Investments measured at fair value through profit or loss'.

Financial assets at amortised cost are debt instruments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company recognises its loans and bond assets at amortised cost.

Recognition, derecognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

Subsequent to initial recognition, all financial assets at fair value through profit or loss are measured at fair value. Dividend income and gains and losses arising from changes in the fair value 'Investments measured at fair value through profit or loss' are presented in the statement of profit or loss and other comprehensive income within 'Net income from investment securities' in the period in which they arise.

Interest on bond assets at amortised cost is recognised in the statement of profit or loss and other comprehensive income in accordance with the effective interest rate method.

Impairment of financial assets at amortised cost

The Company's loans and bond assets, other receivables (excluding prepayments), and cash and cash equivalents are within the scope of the IFRS 9 expected credit loss model. Loans and bond assets, measured at amortised cost, are due from parties related to the entity. The Company measures expected credit losses on these assets on an individual basis. The Company considers that credit risk from other receivables of immaterial amounts and cash and cash equivalents, which consist mainly of bank balances with respective banks, is limited.

Financial liabilities

Classification

Financial liabilities are classified as measured at amortised cost or fair value through profit or loss. Derivative contracts are measured at fair value through profit or loss. Derivative contracts that have a negative fair value are presented as liabilities in the statement of financial position. Other financial liabilities are recognised at amortised cost.

16. Significant accounting policies (continued)

Recognition, derecognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liabilities are added to or deducted from the fair value of the financial liabilities, as appropriate, on initial recognition.

Changes in fair value of financial liabilities measured at fair value through profit or loss (such as derivatives with negative fair value) are recognised in the statement of profit or loss and other comprehensive income in the period in which they arise.

Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Operating assets

Operating assets are recognised at cost, less accumulated depreciation. The cost of operating assets consists of the purchase price and all direct costs of bringing the property into a revenue-generating state. Operating assets are amortised on a straight-line basis over their estimated useful lives. Depreciation is recognised in the statement of profit or loss and other comprehensive income and presented with 'Operating expenses'.

Leases

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by the Company's incremental borrowing rate. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Income tax

The income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before income as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

Corporate governance statement

The board of directors of Stodir hf. (the Company) emphasizes maintaining good management practices and aims to comply with the Guidelines on Corporate Governance issued by the Iceland Chamber of Commerce, NASDAQ OMX Iceland and the Confederation of Icelandic Employers. The Company does not follow the guidelines in all cases, and deviations from them are explained below.

Internal control and risk management

The Company has five employees, and internal control and risk management takes that number into account. A large part of the operations is outsourced, such as accounting and payroll processing. In this way, an attempt is made to ensure that the segregation of duties is as extensive as possible in relation to the number of employees. Segregation of duties is an important control element according to the definition of internal control. The Company's board of directors must ensure that there is sufficient control over the handling of funds and that accounting and settlements are in proper order. Management control is active, but the company's board meets regularly to discuss its issues. Sharing information is easy and efficient due to the small number of people.

Risk management is informal at the Company, which has not established a risk policy. In recent years, the Company has mostly invested in shares in listed companies on the domestic securities market. The board receives information about the development of the company's portfolio at regular board meetings. The Company's main risk is market risk, see note 14, which explains the company's credit risk, liquidity risk and market risk. The board does not intend to set a risk policy for the Company, given that its financial strength is significant and it has almost no debt.

Nomination committee and subcommittees

At the Company there are no subcommittees of the board and no nomination committee. The board does not intend to establish a nomination committee or subcommittees of the board.

Board of directors

During the year 2024, 17 board meetings were held and all board members were present at all meetings during the year.

The board has established operating rules that are not published publicly. The board has not conducted an annual formal performance evaluation.

The board has not established a policy on diversity in relation to the board members.

The board proposes annually a remuneration policy for shareholders at the annual general meeting.

Board members

Sigurjon Palsson, born in 1972, is the chairman of Stodir's board of directors and has been a member of the Company's board since 2009, with a one year break in 2016 - 2017. He was the chairman of the board 2014 - 2016 and from 17 April 2021. Sigurjon is an engineer from the University of Iceland and has a master's degree in management from KTH and in logistics from MIT. He is a certified securities trader. Sigurjon was the COO of Arion banki hf. 2011 - 2017. Sigurjon is one of the founders of PayAnalytics, where he was the CEO from 2017 until it was acquired by beqom in 2023. Since 2023 he has been the Chief Alliances Officer at beqom.

Sigurjon has an indirect holding in Stodir through his company panki ehf. which owns 0.2% share in Stodir. Sigurjon is an independent board member.

Ari Fenger, born in 1980, is a member of the board since 2022. Ari worked as CEO of Nathan Olsen until 2008. Since 2008, Ari has been the CEO of 1912 ehf. Ari sat as president of the Icelandic chamber of Commerce and the University Council of Reykjavik University from 2020-2024. He sits on the board of the American-Icelandic Chamber of Commerce.

Ari has an indirect holding in Stodir through a holding in Helgafell ehf., which has a stake in S121 ehf., which owns 61.0% share in Stodir hf. and is therefore considered a dependent board member.

Corporate governance statement

Board members (continued)

Magnus Armann, born in 1974, is a member of the board since 2022. Magnus has served on numerous boards of listed and unlisted companies in Iceland and abroad. Magnus currently is a member of the boards of GGH ehf., Admiral Reykjavik ehf., Súlur Reykjavík ehf., Bjartavík ehf., Ketilsker ehf., Von Hardfiskverkun ehf., and S121 ehf.

Magnus has an indirect holding in Stodir through his company GGH ehf., which owns 0.28% share in Stodir hf. Magnus has an indirect holding in Stodir through his company GGH ehf., which owns shares in the companies M&M Capital ehf., which owns 3.54% share in Stodir hf. and S121 ehf., which owns 61.0% share in Stodir hf. Magnus is therefore considered a dependent board member.

CEO

Jon Sigurdsson, born in 1978, has been the CEO of Stodir hf. from April 2021. Jon has a bachelor's degree in business administration from the University of Reykjavik. From 2005-2007 he was a managing director at Stodir hf. and from 2007-2010 he was the CEO. Jon has been the managing director of Helgafell ehf. from 2013, chairman of the board of S121 ehf. from 2017 and chairman of the board of Siminn hf. from 2019. Jon also sits on the boards of Blue Lagoon hf. and Blue Lagoon Skincare ehf. Jon has been on the boards of numerous other listed and unlisted companies, both domestically and abroad, e.g. Refresco Group B.V. in the years 2006 - 2018 and N1 hf. (later Festi) in the years 2014 - 2018. Jon has an indirect holding in Stodir hf. through holdings in Helgafell ehf. and Straumnes Radgjof ehf., which own shares in S121 ehf., which owns 61.0% share in Stodir hf.

The CEO is responsible for daily operations of the Company in line with its Articles of Association, policies and decisions made by the Board. The CEO shall work on policy making and advancement of the Company in addition to organising and follow up on its daily operations. Furthermore, the CEO's role is to ensure that the Company's operations are in line with current legislation and rules at each time.

Communication between shareholders and the board of directors

Communication between the shareholders and the Company takes place at the annual general meeting, which is normally held in the spring, and at an information meeting, which is normally held in the autumn. In recent years, all shareholders have also been sent information by e-mail about the Company's operations and finances quarterly.

Violation of laws and regulations

During the year, neither Courts nor supervisory or adjudicating entities have handed down judgments or rulings that the Company has violated laws or regulations in its activities, nor is there knowledge of any such violations.
